

DVOKUT-ECRO Ltd. projects

Company references listed below are some of the projects that Dvokut ECRO team has worked on, which prove an extensive experience of many years acquired through continuous project documentation preparation for various project types (of different scope and complexity) and for various investors. Many of the projects that Dvokut ECRO team has worked on were financed by the EU funds, the World Bank, EBRD and foreign Investors.

Listed projects are divided into categories as demonstrated in the scope of services:

1.1. Strategic Environmental Assessment (SEA) _____	4
1.1.1. Strengthening Capacities / consulting services _____	4
1.1.2. Strategic Environmental Assessment study preparation _____	4
1.2. Environmental Impact Assessment (EIA) _____	5
1.2.1. Reports and requests for EIA scoping _____	5
1.2.2. Infrastructure projects – traffic sector _____	5
1.2.3. Infrastructure projects – energy sector _____	6
1.2.4. Infrastructure projects – waste management _____	7
1.2.5. Infrastructure projects – water management _____	8
1.2.6. Farms _____	8
1.2.7. Raw materials and geothermal water exploitation _____	9
1.2.8. Tourism sector _____	9
1.2.9. Factories _____	10
1.2.10. Others _____	10
1.3. Preliminary Environmental Impact Assessments _____	11
1.3.1. Infrastructure projects - traffic _____	11
1.3.2. Infrastructure projects – water management sector _____	11
1.3.3. Waste management (landfills, recycle yards and compost production) _____	12
1.3.4. Food industry _____	13
1.3.5. Various industrial facilities _____	13
1.3.6. Asphalt plants _____	13
1.3.7. Business and commercial centers _____	13
1.3.8. Mineral exploitation _____	14
1.3.9. Renewable resources _____	14
1.3.10. Oil & gas sector _____	14
1.3.11. Tourism sector _____	14

1.3.12. Other projects	14
1.4. Appropriate Assessment (Ecological Network - Natura 2000)	14
1.4.1. Preliminary nature (Ecological Network) impact assessments	14
1.4.2. Appropriate Assessments	16
1.5. Other environmental protection reports (for project that are not legally obliged to undergo EIA)	17
1.6. Reports on the Main project compliance with the environmental protection measures and the monitoring programme prescribed by the Decree on project acceptability	18
1.7. Reports on a project's impact on water bodies state	18
1.8. Environmental protection reports for procuring EU funds and programs financing	19
1.9. Spatial and ecological analyses	20
1.10. Landscape studies and design preparation	20
1.10.1. Landscape Studies	20
1.10.2. Landscape design	20
1.11. Pollution prevention, control and remediation	21
1.11.1. Due diligence reports and environmental audits	21
1.11.2. Waste management plans/ reports	21
1.11.3. Sanitation programs and plans	23
1.12. IPPC documentation	23
1.12.1. Strengthening capacities / consulting services	23
1.12.2. Documentation necessary for obtaining the environmental permit (IPPC)	23
1.13. Environmental protection plans and programs	24
1.13.1. Environmental action plans	24
1.13.2. Environmental management plans	24
1.13.3. Air quality improvement programs	25
1.14. Financial and Social Assessment	25
1.14.1. Infrastructural projects – traffic sector	25
1.14.2. Infrastructural projects – energy sektor	25
1.14.3. Infrastructural projects –waste management	25
1.14.4. Infrastructural projects – sewerage systems, water structures, irrigation systems and flood protection systems	25
1.14.5. Industrial facilities	26
1.14.6. Tourism sector	26
1.14.7. Ostali projekti	27
1.15. Environmental monitoring	27
1.15.1. Reports and programs on environment state	27
1.15.2. Ambient air monitoring and preparation of air quality reports	27
1.15.3. Ambient air monitoring Automated stations	30
1.15.4. Emission measurement from stationary sources	30
1.15.5. Driling, water and soil sampling and analysis	34

1.15.6. Biological and oceanographical exploration works	36
1.16. Design preparation	36
1.16.1. Water infrastructure	36
1.16.2. Waste management infrastructure	37
1.16.3. Environmental supervision during construction	37
1.16.4. Other	37
1.17. Education	37
1.18. Developmental projects	38

1.1. Strategic Environmental Assessment (SEA)

1.1.1. STRENGTHENING CAPACITIES / CONSULTING SERVICES

- “Strengthening Capacities for Strategic Environmental Assessment at Regional and Local Level” Republic of Croatia, EuropeAid/131493/D/SER/HR (2014)
- Environmental Impact Assessment for Development strategies – implementation of the SEA Directive, project PHARE, Europe Aid/119980/C/SV/HR (2007)

1.1.2. STRATEGIC ENVIRONMENTAL ASSESSMENT STUDY PREPARATION

SECTORIAL STRATEGIES / PLANS / PROGRAMS

- Strategic Environmental Assessment for Regional Development Strategy of the Republic of Croatia until the end of the year 2020 (on going)
- Strategic Environmental Assessment for Adriatic Water Resources Management Plan (Bosnia and Herzegovina) (on going)
- Strategic Environmental Assessment for the Climate Change Strategy of Montenegro (EuropeAid/127054/C/SER/multi) (2015)
- Strategic Environmental Assessment for the Waste Management Plan of Montenegro (EuropeAid/132633/C/SER/multi) (2015)
- Strategic Environmental Assessment for the Physical planning development Strategy of the Republic of Croatia (2015)
- Strategic Environmental Assessment of likely significant environmental impacts from Multiannual programme for construction of regulation and protection water infrastructure and melioration infrastructure for the period 2013-2017 (2015)
- Scoping report for Strategic Environmental Assessment for the Physical planning development Strategy of the Republic of Croatia (2014)
- Strategic Environmental Assessment for Water Resources Management Plan (2013)

OPERATIONAL PROGRAMMES

- Strategic Environmental Assessment of the Cooperation Programme Slovenia-Croatia 2014-2020 (2015)
- Strategic Environmental Assessment of the IPA Cross-Border Cooperation Programme Croatia–Bosnia and Herzegovina-Montenegro 2014-2020 (2015)
- Strategic Environmental Assessment of the Croatia-Serbia IPA Cross-Border Cooperation Programme 2014-2020 (2015)
- Strategic Environmental Assessment for the Operative Program for maritime affairs and fisheries in the Republic of Croatia for the programming period 2014- 2020 (2015)
- Strategic Environmental Assessment for the Operative Program for Competitiveness and Cohesion for EU financial period 2014-2020 (2014)
- Strategic Environmental Assessment for the National Strategic Plan and Operative Program for fisheries of the Republic of Croatia for the programming period 2007-2013 (2013)
- Strategic Environmental Assessment for Operative Program for Transport for 2007 - 2013 (2012)
- Strategic Environmental Assessment of Operational Program for Regional Competitiveness 2007-2013 (2011)

PHYSICAL PLANS

- Strategic Environmental Assessment of Changes and Amendments of the Town Split Physical plan (on going)
- Strategic Environmental Assessment of Changes and Amendments of Vukovarsko-srijemska County Physical Plan (on going)
- Strategic Environmental Assessment of Changes and Amendments of Dubrovačko-neretvanska County Physical Plan (on going)
- Strategic Environmental Assessment of Physical Plan of Bjelovarsko-bilogorska County (on going)
- Strategic Environmental Assessment of the Amendments of Physical Plan of Požeško-slavonska County (2015)
- Strategic Environmental Assessment of the Physical Plan of Primorsko – goranska County (2012)

OTHER

- Strategic Environmental Assessment of Montenegro Natural Gas Network Development Plan (on going) (part of the project *Western Balkans Investment Framework (WBIF); Infrastructure Projects Facility; Technical Assistance 4 (IPF 4); Infrastructures: Energy, Environment, Transport and Social; WB10-MNE-ENE-01*)
- Strategic Environmental Assessment of County Development Strategy for Dubrovačko-neretvanska County till year 2020 (on going)
- Strategic Environmental Assessment of County Development Strategy for Zadarska County till year 2020 (on going)
- Strategic Environmental Assessment of Modernization of Pan-European Corridor X (2010)
- CARDS 2003: Environmental Assessment of Development Strategies (SEA) (Project No. Europe Aid/119980/C/SV/HR) (2007)
- SEA Neretva Bay and surrounding Adriatic Sea Polluters Identification and Assessment) with Master Plan, TEBODIN – Netherlands (2005)

1.2. Environmental Impact Assessment (EIA)

1.2.1. REPORTS AND REQUESTS FOR EIA SCOPING

- EIA scoping request for Zadar airport reconstruction and additions (2014)
- EIA scoping request for Dubrovnik airport expansion (2013)
- Report on the scope and content of the EIA study for railway infrastructure modernisation in Serbia (2012)

1.2.2. INFRASTRUCTURE PROJECTS – TRAFFIC SECTOR

ROADS

- EIA for the Hrvatska Kostajnica northern bypass, approx. length 3,5 km (ongoing)
- EIA for relocating part of the state road DC37 in Sisak (approx. length 3 km) (ongoing)
- EIA for relocating part of the state road D8 Makarska-Podgora (ongoing)
- EIA for settlement Janjine bypass, peninsula Peljašac (2015)
- EIA for settlements Potomje and Pijavično Bypass, peninsula Peljašac, Municipality Orebić (2015)
- EIA for Knin south bypass (2015)
- Part of EIA for Petrijevci bypass (2013) – as external experts
- EIA for Prelog bypass (2012)
- EIA for expressway – Našice – Pleternica – Lužani (2011)
- Part of EIA for Bjelovar-Virovitica-Republic of Hungary freeway (2011) – as external experts
- EIA Hrvatska Kostajnica north bypass (2011)
- EIA for expressway - south bypass of Kutina, from State Road D45 to County Road Ž31274 (2011)
- EIA of State Road D219 Reconstruction, section Han-Bosnia and Herzegovina border, total length 12km (2009)
- EIA of State Road D116 Construction, section Jelsa-Poljica, 1st Subsection (2009)
- EIA for Donji Miholjac City bypass (2008)
- Project of development Planning-study documentation for Corridor Vc Highway – EIA of highway construction, LOT1: Svilaj-Doboj Section (2006)
- EIA of targeted content for state road D60 Lovreć-Imotski, Lovreć (2003)
- EIA of targeted content for state road D54 Maslenica-Zaton Obrovački, Jasenice (2003)
- EIA of targeted content for crossroad of state roads D8 and D512 Makarska East reconstruction, Makarska (2003)

RAILWAYS

- EIA for the upgrade of the existing railway track and the construction of the second track of a double-track railway line Križevci-Koprivnica-State Border, EuropeAid/131240/D/SER/HR (2015)
- EIA of the reconstruction of the Rijeka and Rijeka Brajdica railway stations in relation to the construction of a new container terminal in Rijeka (Zagreb pier) and the expansion of the existing one (Brajdica) (2014)
- Preparatory EIA for construction of a new railway track Koprivnica – Kotoriba - Državna granica (2014)

- EIA for reconstruction of main railway M105 Novska – Vinkovci – Tovarnik – State border – Šid, section Novska-Okučani (2010) – part of the project Modernisation of the Pan-European Corridor X in Croatia
- EIA Railway Gradec - Sveti Ivan Žabno (1997)

AIRPORTS

- EIA for Zadar airport reconstruction and additions (2015)
- EIA for Dubrovnik airport expansion (2014)
- EIA for airport Stankovci (2012)

SEA PORTS

- EIA for the new operational coastline in Batahovina area of luka Dubrovnik (Gruž) (on going)
- EIA of Local Public Seaport Vrnaža (Šibenik) (2015)
- EIA of nautical port Šimuni, island of Pag (2013)
- EIA of nautical port Žut, island of Žut (2011)
- EIA of nautical port Palmižana, Pakleni otoci (2011)
- EIA of seaport Tkon, island of Pašman (2011)
- EIA for sport and recreational purpose port Jadrija, Šibenik (2009)
- EIA Sport Marina Tkon, Tkon (2006)
- EIA Seaport Kaštel Sućurac, Kaštel Sućurac (2005)
- EIA of sport marine Milna, Brač (2004)
- EIA Local port "Rovanjska", Jasenice (2004)
- EIA Seaport "Premuda", otok Premuda (2003)
- EIA Seaport "Kukljica", Kukljica (2003)
- EIA Seaport "Mul", Kali (2002)
- EIA Seaport "Batalaža", Kali (2002)

RIVER PORTS AND NAVIGABLE WATERWAYS

- EIA for new port Sisak, EuropeAid/130819/D/SER/HR (2015)
- Part of EIA of rehabilitation of the Sava River Waterway and determining the Sava Regulation line from Rančinovci to Sisak (2009) – as external experts – Study was prepared by VPB d.d.
- EIA – phase 1: Rehabilitation of the Sava River Waterway to Class IV (2009)
- EIA – phase 2: Extending the navigation to Sisak, rkm 586,0, to Brežice (2009)
- EIA – phase 3: Rehabilitation of the Sava River Waterway to Class Va of the Sava River Commission (2009)

1.2.3. INFRASTRUCTURE PROJECTS – ENERGY SECTOR

- EIA Wind Power Plant Kamesnica (on going)
- Part of EIA of the International Gas pipeline Kovri – Koper DN 300/50 bar (on going)
- Part of EIA of the Main Gas pipeline Lepoglava – Krapina (Đurmanec) DN 250/50 (on going)
- Part of EIA of the Main Gas pipeline Slatina - Velimirovac DN 200/50 (on going – in procedure)
- Part of EIA of the Main Gas pipeline Kozarac-Slobodnica DN 800/75 bar (2015)
- Part of EIA of the Main Gas pipeline Karlovac – Lučko DN 500/75 bar (2015)
- Part of EIA of the Main Gas pipeline Bosiljevo- Karlovac DN 700/75 bar (2015)
- Part of EIA of the Main Gas pipeline Knežinec – Varaždin II DN 300/50 Bar (2014)
- Part of EIA of the Main Gas pipeline Omanovac Daruvar DN 150/50 Bar (2014)
- Part of EIA of the Main Gas pipeline Bosiljevo - Sisak DN 1000/100 bar (2014)
- Part of EIA of the International Gas pipeline Zagvozd – Imotski - Posušje DN 800/75 bar (2014)
- Part of EIA of the Gas pipeline Zadvarje - Brela DN 300/75 bar (2014)
- Part of EIA of the Main Gas pipeline Kozarac - Sisak DN 1000/100 bar (2014)
- Part of EIA for LNG terminal on Island of Krk (2014) – part of the project *Infrastructure Projects Facility Technical Assistance Window (IPF TA) Western Balkans; EuropeAid/128073/C/SER/MULTI; WB5-HR-ENE-01 LNG RV - Conceptual Solution, Feasibility Study and EIA/SIA and Conceptual Design*
- ESIA (Environmental and Social Impact Assessment) of Ionian-Adriatic Pipeline route through Montenegro (2014) – part of the project *Infrastructure Projects Facility Technical Assistance Window (IPF TA) Western Balkans; EuropeAid/128073/C/SER/MULTI; WB5-REG-ENE-03 FS and ESIA for the Ionian – Adriatic Pipeline (IAP)*

- Monitoring of ESIA (Environmental and Social Impact Assessment) of Ionian-Adriatic Pipeline route through Albania (2014) – part of the project *Infrastructure Projects Facility Technical Assistance Window (IPF TA) Western Balkans; EuropeAid/128073/C/SER/MULTI; WB5-REG-ENE-03 FS and ESIA for the Ionian – Adriatic Pipeline (IAP)*
- Part of EIA of the Main Gas pipeline Donji Miholjac - Belišće DN 400/50 (2014)
- Part of EIA of the Main Gas pipeline Zlobin – Bosiljevo DN 1000/100 bar (2013)
- Part of EIA of the Main Gas pipeline Lička Jasenica - Bihać DN 500/75 bar (2012)
- Part of EIA of the Main Gas pipeline Donji Miholjac – Osijek DN 800/75 bar (2012)
- Part of EIA of Main Gas pipeline Ploče – Dubrovnik DN 1000/75 Bar (2012)
- Part of EIA of the Main Pipeline Dubrovnik – Prevlaka – Dobrec (CG) DN 1000/75 bar (2012)
- Part of EIA of the Gas Pipeline System of Central and Eastern Croatia, the Main Gas Pipeline Osijek-Vukovar (2011)
- Part of EIA of the Main Pipeline Zlobin – Rupa DN 1000/100 bar (2011)
- Part of EIA of the Gas Pipeline System of Central and Eastern Croatia, the Main Gas Pipeline Vukovar-Negoslavci DN 800/75 bar (2010)
- Part of EIA of the Main Pipeline Slobodnica – Sotin DN 1000/75 bar (2010)
- Part of EIA of Lika-Dalmatia Gas Pipeline System - Main Gas Pipeline Split-Ploče (2009)
- Part of EIA of the Main Pipeline Kukuljanovo-Omišalj DN 500/100 bar (2009)
- Part of EIA of the Main Pipeline Kutina-Dobrovac DN 200/50 bar (2009)
- Part of EIA of the Gas Pipeline System of Central and Eastern Croatia, the Main Pipeline Slobodnica-Bosanski Brod (2009)
- Target Content EIA of Mini-Hydro Electric Power Plant Pleternica (2008)
- EIA for Biodiesel production plant, Beli Manastir (2008)
- Part of Target Content EIA of the Main Gas Pipeline Vodnjan-Umag (2007)
- EIA Wood Biomass Cogeneration Facility - Strizivojna Hrast (2007)
- Part of Target content EIA of the Gas Pipeline Supply System of Lika and Dalmatia, 1st section Podrebar - Josipdol (2007)
- Part of Target content EIA of the Gas Pipeline Supply System of Lika and Dalmatia, 2nd section Josipdol - Gospić (2007)
- Part of Target content EIA of the Gas Pipeline Supply System of Lika and Dalmatia, 3rd section Gospić - Benkovac (2007)
- Part of Target content EIA of the Gas Pipeline Supply System of Lika and Dalmatia, 4th section Benkovac - Split (2007)
- Target content EIA of the exploitation field closure and rehabilitation of the natural gas exploitation field Veliki Otok (2004)
- EIA Wind Power Plant "Ravna 1", Pag (2001)
- EIA Plomin I/II – thermo power plant (1997)

1.2.4. INFRASTRUCTURE PROJECTS – WASTE MANAGEMENT

- EIA of Landfill Diklo Remediation, Zadar (on going)
- EIA of Landfill "Sozanj" Remediation, Municipality of Lastovo (2010)
- EIA of Landfill "Trema-Gmanje" Remediation and Closure, Municipality of Sv. Ivan Žabno (2010)
- EIA of Sanitary Landfill "Stražbenica", Gračac (2010)
- EIA of Sanitary Landfill "Jezero", Plaški (2009)
- EIA for Remediation and Continuous Operation of Landfill "Sodol", Ogulin (2007)
- Target Content EIA of Sanitary Landfill "Barutana", Jasenovac (2007)
- Elaborate for EIA of Remediation and Extension of Sanitary Landfill Ramići (2007)
- EIA & Construction Project of Sanitary Landfill "Cetin", Vrbovsko (2007)
- EIA & Construction Project of Sanitary Landfill "Ćore", Dvor (2007)
- Target Content EIA of Sanitary Landfill "Dočić", Sali (2006)
- Target Content EIA of Sanitary Landfill "Šljukine Njive", Pirovac (2006)
- Target Content EIA of Sanitary Landfill "Kik", Lovinac (2006)
- Target Content EIA of Sanitary Landfill "Jelenik-Macure", Kistanje (2006)
- Elaborate for EIA of 2nd Phase Construction of Salg and Ash Landfill „Jezero II“, TE Tuzla (2006)
- EIA of Sanitary Landfill Veliki Grđevac, Veliki Grđevac (2006)
- EIA of Sanitary Landfill "Ćojluk", Udbina (2006)
- EIA of Sanitary Landfill "Dolci", Stari Grad (2006)

- EIA of Sanitary Landfill "Jagodnja gornja", Polača (2006)
- EIA of Sanitary Landfill "Prapatna", Jelsa (2006)
- EIA of Sanitary Landfill "Stanišće", Hvar (2006)
- EIA of Sanitary Landfill "Ledine", Đelekovec (2006)
- EIA of Sanitary Landfill "Ćuić brdo", Rakovica (2006)
- EIA of Sanitary Landfill "Novi Dvori", Grad Zaprešić (2006)
- EIA of Sanitary Landfill Novigrad, Novigrad (2005)
- EIA of Sanitary Landfill "Vidovac", Karlobag (2005)
- EIA of Sanitary Landfill "Zarabaniž", Kali (2005)
- EIA of Sanitary Landfill Donja Dubrava, Donja Dubrava (2005)
- EIA for Collection, Storage and Pre-processing of Hazardous Waste "Nacional", Bjelovar (2004)
- EIA Wastes dump Gornji Kneginec (2001)
- EIA Hospital waste Incinerator – Opća bolnica Zadar (2001)
- EIA Factory for animal waste treatment "Viljevo" (1999)
- EIA Agroproteinka, Sesevski Kraljevec (1999)
- EIA "Landfill Dobro Selo", Čitluk (1997)
- EIA "Incinerator of technological waste", Zagreb (1997)

1.2.5. INFRASTRUCTURE PROJECTS – WATER MANAGEMENT

- EIA for Zaprešić agglomeration (on going)
- part of EIA for hydropower plants Senj - Kosinj (on going)
- part of EIA for multipurpose hydrotechnical system Osijek (on going)
- EIA for the irrigation system of Vransko polje (on going)
- EIA for the irrigation system of Imotsko polje (on going)
- EIA for the irrigation system of Bekijsko polje (Bosnia and Herzegovina) (on going)
- EIA for sewerage system and WWTP for the Split-Solin agglomeration (on going)
- EIA for irrigation system of Baranja area (2013)
- EIA for sewerage system and WWTP for the Čakovec agglomeration (2012)
- EIA for Storage Lake Dubovnik construction (2010)
- EIA for Storage Lake Breznica construction (2010)
- EIA for WWTP for the Town of Hvar (2007)
- EIA Water Supply, Sewerage System and WWTP for the City of Knin (2007)
- Revision of the EIA Water Supply, Sewerage System and WWTP for the City of Drniš (2007)
- EIA of Sewerage System for the city of Šibenik (2000)
- EIA Water pumping site Šibice (1999)

1.2.6. FARMS

- EIA of a Chicken Farm Luneta, Municipality of Sv. Đurđ (2013)
- Part of EIA of a Poultry Farm EKO Kotor, Municipality of Kotoriba (2012)
- EIA of Pig Farm Sokolovac (2011)
- EIA of Pig Farm Gaj (2011)
- EIA of Pig Farm Haljevo (2011)
- EIA of Reconstruction of the Pig Farm Čeretinci 1 (2009)
- EIA of Reconstruction of the Pig Farm Andrijaševci 1 (2009)
- EIA of Reconstruction of the Pig Farm Podlugovi (2009)
- EIA for a hatchery, Sućuraj (2007)
- EIA of Reconstruction of Pig Farm Kozarac (2007)
- EIA of Cow farm Hlebine (2006)
- Target Content EIA of Chicken Farm "Patek" Upgrade (2005)
- Target Content EIA for Construction of New Chicken Farm on Existing Facilities of "Sveta Marija" Chicken Farm, Sveta Marija (2005)
- Target Content EIA for Construction of New Chicken Farm on Existing Farm "Slakovec", Nedelišće (2004)
- EIA of Chicken Farm "Gospodarstvo Štefičar", Orehovica (2003)
- EIA Chicken Farm "Bujanić", Čakovec (2003)

- EIA of Chicken Farm "Mika", Čakovec (2002)
- EIA for Repurposing Heifer Farm into Turkey Farm "Delovi", Municipality of Novigrad Podravski (2002)
- EIA of Chicken Farm Petrijevcı (2002)
- EIA of Chicken Farm Stanetinec, Štrigova (2001)
- EIA Chicken Farm Reka, Koprivnica (2001)
- EIA Chicken farm Mačkovec, Čakovec (2001)
- EIA Chicken farm Borje – Kalnik (2001)
- EIA Chicken farm Bojnikovec (2001)
- EIA Chicken farm "Sračinec", Varaždin (2000)

1.2.7. RAW MATERIALS AND GEOTHERMAL WATER EXPLOITATION

- EIA for Exploitation of technical-construction stone at the extended Mrkovac quarry (2014)
- Part of EIA for Exploitation of technical-construction stone at the Veprštak quarry (2014)
- Part of EIA for architectonic-construction and technical-construction stone at the future quarry Nada in Municipality Unešić (2013)
- Part of EIA for Exploitation of technical-construction stone at the future Zapužane - Zdrug quarry in Municipality Polača (2012)
- EIA for Exploitation of geothermal water at Velika ciglena exploitation field (2012)
- EIA for Exploitation of technical-construction stone at the extended Gradišće quarry (2012)
- EIA for Exploitation of technical-construction stone at the Giletinci quarry (2012)
- EIA of Raw mineral exploitation for industrial processing and construction stone production on exploitation field "Kruševo", Obrovac (2010)
- EIA of Quarry "Tusto Brdo", Stari Grad (2009)
- EIA of Carbon Raw Material Exploitation on Exploitation Field "Zut-Klašnice", Dvor (2008)
- EIA of Plaster Quarry "Stipanovića greben - zapad", Sinj (2008)
- EIA of Quarry "Vojnić Breg", Bedekovčina (2008)
- EIA Quarry «Sv. Križ Rudomar», Tuhelj (2007)
- EIA of Brick Clay Exploitation on Exploitation Field "Tomašanci" (2007)
- EIA of Quarry Gradišće, Žminj (2006)
- EIA of Quarry „Pleterac“, Town of Čazma (2006)
- EIA of Quarry "Sandarovo", Municipality of Kanfanar (2006)
- EIA of Quarry Široko brdo - Vrata, Fužine (2006)
- EIA of exploitation field of brick clay "Donja Čemernica - Gajevi", Municipality of Topusko (2005)
- EIA of Quarry Križarovica, Gračišće (2005)
- EIA of Quarry, asphalt base and concrete production plant "Straža - Vinceli", Municipality of Đurmanec (2004)
- EIA of Quarry Podbadanj, Crikvenica (2004)
- EIA Quarry "Tapanjska glava", Perušić (2004)
- EIA Quarry Lamjana, Ugljan (2003)
- EIA Gravel pit "Sekuline", Molve (2002)
- EIA Quarry Gravanaća, Bibići (2002)
- EIA Quarry Vršine, Baderna (2002)
- EIA Quarry "Mrkovac", Mrkopalj (2001)
- EIA Gravel Plant "Jamičak", Sv. Đurđ (2001)
- EIA Gravel plant "Šibak", Rugvica (2000)
- EIA Quarry "Rakalj", Pula (2000)
- EIA Gravel pit Vukovina (1999)
- EIA Gravel plant "Zajarki", Zaprešić (1999)
- EIA of the quarry " Hrvatsko Selo ", Topusko, (1998)
- EIA of the Quarry "Belski Dol-Gornji", (1997)

1.2.8. TOURISM SECTOR

- EIA for a touristic zones Prapatna, Perna and Vinogradine, Island of Hvar (on going)

- EIA for a sports and recreation centre within detailed spatial plan „Jezero-Ružica Grad-Hercegovac“, Orahovica (2013)
- EIA of cableway Skrad-Zeleni Vir (2005)
- EIA of Tourist Zone Saladinka-Sv.Martin, Poreč (2004)
- EIA Ski yard «Bijela kosa – Pakal», Vrbovsko (2004)
- EIA Golf playground, Tourist village & Marine “Porto Mariccio”, Barbariga (2002)
- EIA of Reconstruction of Stonemin Podrola into Tourist Zone and Marina Rakalj-Sv. Agneza", Municipality of Marčana (2002)
- EIA Tourist village "Alberi", Savudrija (2001)
- EIA Tourist village Pineta Valbandon, (1999)

1.2.9. FACTORIES

- EIA for copper wire production line, capacity 34 t/day, EUROCABLE GROUP, Municipality Jakovlje (on going)
- EIA for changes to the existing brickyard facility Cerje Tužno Ltd., Municipality Markuševac (2014)
- EIA for the Reconstruction of Existing Facility - Construction of Additional Facilities, Adaptation of Facilities for Metal Processing, Vodnjan (2008)
- EIA of Spring Water Factory Brušane, Gospić (2008)
- EIA & Construction Project of Reconstruction of polyethylene factory, Omišalj (2008)
- EIA for PS-E facility at the location of DINA Petrokemija d.d., Omišalj (2008)
- EIA for Production line for wood products, Otok Oštarijski (2008)
- EIA for explosive production and storage facilities, Glina (2007)
- EIA of Cattle Feed Factory reconstruction, Belje d.d. (2007)
- EIA of Wood Production Facilities, DI Spačva Inc., Vinkovci (2007)
- EIA of Briquette Production Line in Production Facility Istarska ciglana Inc., Borut (2006)
- EIA for Appliance of Alternative Fuel in Production Facilities of ITV Ltd., Most Raša (2006)
- Target Content EIA of Facilities for Thermal Wood Processing - Boiler Facility and Dry-kiln, Belišće Inc. Wood Processing Company (2005)
- EIA of Plaster and Glue Production Facilities ITV Ltd, Most Raša (2005)
- EIA for Fruit, Vegetables and Drinks Production Facilities, Lipovac Inc. (2003)
- EIA Food processing industry PURIS d.d., Pazin (2003)
- EIA Leather factory "Duma – kože" d.o.o., Sesevski Kraljevec (2001)
- EIA Zinc manufacture in Dugo Selo (2000)
- EIA Istarske ciglane d.d., section Borut – Cerovlje (2000)
- EIA of Industrial Track "Našicecemant", Našice (1998)
- EIA "Industrial Zone - Žitnjak", Zagreb (1997)
- EIA "Komolac" (1997)
- EIA Franck, Zagreb (1997)

1.2.10. OTHERS

- part of EIA for asphalt plant Čepin (2013)
- EIA for asphalt plant Busišta 2 (2012)
- EIA for Construction of Kneževi Vinogradi Winery (2010)
- EIA for Shopping Centre Supernova, Buzin (2009)
- EIA of Asphalt Facilities, Orahovica (2008)
- EIA of Gas Station and Secondary Facilities Rexal Ltd., Buje (2004)
- EIA of Asphalt Facilities Lepoglava, Lepoglava (2004)
- EIA of Asphalt Facilities Posedarje, Posedarje (2004)
- EIA Shopping city Zagreb (2002)
- EIA Recycling plants with gas stations, Grubišno Polje (2001)
- EIA Shipyard, location Uljanik Otok, Pula (2000)
- EIA Floating pumping station “Punat”, island Krk (2000)
- EIA New graveyard Nuncijata, Dubrovnik, (1999)
- EIA Car-lacquer Pazin, (1998)
- EIA equipment for production of dry mortar– Sirač, (1998)

1.3. Preliminary Environmental Impact Assessments

1.3.1. INFRASTRUCTURE PROJECTS - TRAFFIC

ROADS

- Preliminary Environmental Impact Assessment for construction of Veli Vrh – Pula – Pula Airport road construction (on going)
- Preliminary Environmental Impact Assessment for road section crossroad Plano – beginning of 3rd line of Trogir round belt – Town of Trogir (on going)
- Preliminary Environmental Impact Assessment for state road D5 reconstruction, section Veliki Zdenci – Daruvar, 15.2 km in length (2015)
- Preliminary Environmental Impact Assessment for state road D2 reconstruction, section Suhopolje – Sladojevci, 14.8 km in length (2015)
- Preliminary Environmental Impact Assessment for state road D2 reconstruction, section Vukovar – Opatovac, section 014, 13.14 km in length (2015)
- Screening report for state road D100-001 reconstruction, sections: Porozina, Dragozetići-Beli, Predošćica, 8.3 km in length (2015)
- Preliminary Environmental Impact Assessment for state road D38 reconstruction, section 002, passing through the town of Požega, 3.66 km in length (2014)
- Preliminary Environmental Impact Assessment for state road D75 reconstruction, section Pula-Bale, 15.1 km in length (2014)
- Preliminary Environmental Impact Assessment for state road D29 Mače – Marija Bistrica, approx. 15,05 km in length (2012)
- Preliminary Environmental Impact Assessment for state road D29 Novi Golubovec – Mače (12,53 km) and for D34 Novi Golubovec (3,033 km) reconstruction (2012)

RAILWAYS

- Preliminary Environmental Impact Assessment for changes in the project for modernization of the existing and construction of the second railway track, section Križevci – Koprivnica – State border: open railway from km 50+900 to km 51+450; Lepavina train station from km 51+450 to km 54+000 (on going)

AIRPORTS

- Preliminary Environmental Impact Assessment for Airport Rab (2014)
- Preliminary Environmental Impact Assessment for Airport Stankovci (2011)

SEAPORTS

- Preliminary Environmental Impact Assessment cruise ship terminal in port Gruž, Dubrovnik (on going)
- Preliminary Environmental Impact Assessment for sea port Jazine – placing of pontoon piers, Town of Zadar (2013)
- Preliminary Environmental Impact Assessment for nautical port Vrboska (2012)
- Preliminary Environmental Impact Assessment for ferry port Polačišta, Island of Korčula (2012)

1.3.2. INFRASTRUCTURE PROJECTS – WATER MANAGEMENT SECTOR

WATER SUPPLY SYSTEMS, SEWER SYSTEMS AND WASTEWATER TREATMENT PLANTS

- Preliminary Environmental Impact Assessment for Imotski agglomeration (on going)
- Preliminary Environmental Impact Assessment for Brela, Baška voda, Promajna-Krvavica, Makarska, Tučepi, Podgora (on going)
- Preliminary Environmental Impact Assessment for Ploče agglomeration (on going)
 - Preliminary Environmental Impact Assessment for Vela Luka agglomeration 2015-2016 (on going)
 - Preliminary Environmental Impact Assessment for the integral waste water sewerage and water supply system in Sinj, Trilj, Otok and Dicmo (on going)
- Preliminary Environmental Impact Assessment for Đurđevac agglomeration sewerage system (on going)

- Preliminary Environmental Impact Assessment for Virje i Novigrad Podravski agglomeration sewerage system (on going)
- Preliminary Environmental Impact Assessment for Podravske Sesvete agglomeration sewerage system (on going)
- Preliminary Environmental Impact Assessment for Ferdinandovac agglomeration sewerage system (on going)
- Preliminary Environmental Impact Assessment for Đurđevac water supply system (on going)
- Preliminary Environmental Impact Assessment for Jelsa – Vrboska agglomeration (on going)
- Preliminary Environmental Impact Assessment for water supply system of part of the settlement Nova sela (on going)
- Preliminary Environmental Impact Assessment for water supply pipeline for the elevated zone of the Gala settlement (on going)
- Preliminary Environmental Impact Assessment for Mursko Središće agglomeration sewerage system and WWTP (2015)
- Preliminary Environmental Impact Assessment for Donja Dubrava agglomeration sewerage system and WWTP (2015)
- Preliminary Environmental Impact Assessment for Sinj sewerage system (2015)
- Preliminary Environmental Impact Assessment for reconstruction and modernization of WWTP Čakovec, Town of Čakovec (2015)
- Preliminary Environmental Impact Assessment for agglomeration Betina-Murter – WWTP – changes in the project (2014)
- Preliminary Environmental Impact Assessment for the sewerage system in Metković (2014)
- Preliminary Environmental Impact Assessment for WWTP construction in Jastrebarsko (2014)
- Preliminary Environmental Impact Assessment for reconstruction and modernization of WWTP Čakovec (2014)
- Preliminary Environmental Impact Assessment for sewerage system and additions to the WWTP - Betina-Murter (2013)
- Preliminary Environmental Impact Assessment for collection and sewerage system for agglomeration Samobor (incl. a 40.000 PE WWTP with biological treatment) (2011)

IRRIGATION SYSTEMS AND FLOOD PROTECTION

- Preliminary Environmental Impact Assessment for retention Čret, Bednja Municipality (on going)
- Preliminary Environmental Impact Assessment for irrigation system Novi Gradac-Detkovic (2014)
- Preliminary Environmental Impact Assessment for irrigation system Donja Baštica (2014)
- Preliminary Environmental Impact Assessment for irrigation system Lisansko polje, area Zazvic – water catchment location change (2014)

RIVER MAINTENANCE

- Preliminary Environmental Impact Assessment for riverbank fortification on a section of river Drava in Križnica settlement (on going)
- Preliminary Environmental Impact Assessment for maintenance works on Drljanski potok and construction of Mala Kanjiža retention in the Town of Ilok (on going)
- Preliminary Environmental Impact Assessment for improvement of stream Velika Paklenica, from 1+620 km to 1+720km and from 3+500km to 3+850 km (2014)

1.3.3. WASTE MANAGEMENT (LANDFILLS, RECYCLE YARDS AND COMPOST PRODUCTION)

- Preliminary Environmental Impact Assessment for non-hazardous waste management facility in Vukovina (2016)
- Preliminary Environmental Impact Assessment for sanitary landfill of town of Hvar (2013)
- Preliminary Environmental Impact Assessment for Sava promet operation yard for storing scrap metal, incl. discarded vehicles, of 40.000 t/year capacity (2011)
- Preliminary Environmental Impact Assessment for compost manufacturing and accompanying facilities, Euro kompost (2011)
- Preliminary Environmental Impact Assessment Inquiry for Construction Material Landfill and Recycling Yard Valdemat, City of Umag (2009)

1.3.4. FOOD INDUSTRY

- Preliminary Environmental Impact Assessment for a facility for receiving, processing and storing marine organisms with accompanying facilities (ongoing)
- Preliminary Environmental Impact Assessment for cattle farm Šodolovci (2014)
- Preliminary Environmental Impact Assessment for a facility for fish goods production, Business Zone Grabi, Poličnik – Teši Tunolov Ltd.(2013)
- Preliminary Environmental Impact Assessment for a facility for fish goods production, Conex trade Ltd, Trilj (2011)
- Preliminary Environmental Impact Assessment for Construction of Business Building, Management and Production Facilities for Reception, Packing and Shipment of anchovies, Business Zone Kukuzovac, Town of Sinj (2010.)
- Preliminary Environmental Impact Assessment for Construction of Business Building, Management and Production Facilities for Reception, Packing and Shipment of Sea Fish and Fish products, Business Zone Grabi, Poličnik, Mišlov Ltd (2010)
- Preliminary Environmental Impact Assessment Inquiry for Construction of Processing and Packing Facilities for Finished Fish Products, Business-Production Zone Čaporice, Trilj (2010)

1.3.5. VARIOUS INDUSTRIAL FACILITIES

- Preliminary Environmental Impact Assessment for atmospheric gases manufacturing facility in the industrial zone Rakitovec (on going)
- Preliminary Environmental Impact Assessment for manufacturing-business building in part of the cadastral plot 261/2 and 261/6 in cadastral municipality Mravince; GUMIS d.o.o. (on going)
- Preliminary Environmental Impact Assessment for manufacturing-storage facility „Dracomex“, industrial zone Kukuzovac, Sinj (on going)
- Preliminary Environmental Impact Assessment for reconstruction of the production and storage building – addition of a storage area and compressor station, and transformation of the existing storage area into a production line– phase II, Knauf Insulation, Novi Marof (2015)
- Preliminary Environmental Impact Assessment for pellets factory, facility for sheet preparation and cogeneration DELNI Ltd., Delnice (2015)
- Preliminary Environmental Impact Assessment for new moulding and casting facility with casting capacity increase, replacement of the enamelling furnace (incl. a switch to a new energy source) with enamelling capacity increase, factory Plamen Ltd., Požega (2014)
- Preliminary Environmental Impact Assessment for small shipyard Murter (2014)
- Preliminary Environmental Impact Assessment for pellets factory Brinje (2013)
- Preliminary Environmental Impact Assessment for rock wool factory Knauf Insulation (2011)
- Preliminary Environmental Impact Assessment Inquiry for Construction of Industrial Hall in Shipyard Kraljevica (2009)
- Preliminary Environmental Impact Assessment Inquiry for Technological Improvement of Operations of Pirolithic Incinerators for production of VCM, Dina Petrochemicals, Municipality Omišalj (2009)

1.3.6. ASPHALT PLANTS

- Preliminary Environmental Impact Assessment for concrete facility Kaštela (investor Cemex d.d.) (2014)
- Preliminary Environmental Impact Assessment for production facilities in Stupnik – asphalt base and concrete production facilities (2013)

1.3.7. BUSINESS AND COMMERCIAL CENTERS

- Preliminary Environmental Impact Assessment for Shopping Centre SUPERNOVA, Buzin, Zagreb (2010)
- Preliminary Environmental Impact Assessment for Shopping Centre SUPERNOVA, Buzin, Zagreb (2009)
- Preliminary Environmental Impact Assessment for Business Centre IT5 (2009)
- Preliminary Environmental Impact Assessment for Business Centre in Zagreb (2009)
- Preliminary Environmental Impact Assessment for Construction of Logistic Centre in Business Zone Jalševac, City of Jastrebarsko (2009)

1.3.8. MINERAL EXPLOITATION

- Preliminary Environmental Impact Assessment for Increased Exploitation Rate on Exploitation Field Zut Klašnice (2011)

1.3.9. RENEWABLE RESOURCES

- Preliminary Environmental Impact Assessment for exploitation of geothermal water from manufacturing drills vc-1 and vc-2 and deposition drill eksploatacija geotermalne vode iz proizvodnih bušotina vc-1 i vc-1a i utisnih bušotina vc-2 i ptk-1 na eksploatacijskom polju „Velika Ciglana“, grad Bjelovar i općina Severin (2015)
- Preliminary Environmental Impact Assessment for solar power plants Promina PS-1 and Promina PS-2 (2015)

1.3.10. OIL & GAS SECTOR

- part of the Preliminary Environmental Impact Assessment – reconstruction of a main gas pipeline Zagreb Istok – Kutina DN 600/75 through construction of a compressor station in Velika Ludina and reconstruction of the measuring-regulatory node Okoli (2015)
- Preliminary Environmental Impact Assessment for a combined gas station (diesel, gasoline, LNG) for vehicles and vessels (2013)

1.3.11. TOURISM SECTOR

- Preliminary Environmental Impact Assessment for Obonjan island tourist zone (on going)
- Preliminary Environmental Impact Assessment for thematic parks within area foreseen for improvement of exploitation fields, Orahovica (on going)
- Preliminary Environmental Impact Assessment for beach construction east of Duboka bay, Sutivan Municipality (on going)
- Preliminary Environmental Impact Assessment for a sports-recreation zone Prelog (2016)
- Preliminary Environmental Impact Assessment for a mountain home / education center – school in the nature, Gornja Pištana (Grad Orahovica) (2015)
- Preliminary Environmental Impact Assessment for shoreline reconstruction in Sutomiscica, Municipality of Preko (2014)

1.3.12. OTHER PROJECTS

- Preliminary Environmental Impact Assessment for firehouse construction (on going)
- Preliminary Environmental Impact Assessment for sediment build-up in bay Blace, Municipality Slivno (2015)

1.4. Appropriate Assessment (Ecological Network - Natura 2000)

1.4.1. PRELIMINARY NATURE (ECOLOGICAL NETWORK) IMPACT ASSESSMENTS

PRELIMINARY NATURE (ECOLOGICAL NETWORK) IMPACT ASSESSMENTS FOR PHYSICAL PLANs

- Ecological Network Screening Elaborate for Changes and Amendments of Osječko – baranjska County Physical Plan (2013)
- Ecological Network Screening Elaborate for Changes and Amendments of Zadar County Physical Plan (2013)
- Ecological Network Screening Elaborate for IV. Changes and Amendments of Brodsko posavska County Physical Plan (2013)

PRELIMINARY NATURE (ECOLOGICAL NETWORK) IMPACT ASSESSMENTS FOR PROJECTS

- Ecological Network Screening Elaborate: Hrvatska Kostajnica northern bypass, approx. length 3,5 km (ongoing)
- Ecological Network Screening Elaborate: relocating part of the state road DC37 in Sisak (approx. length 3 km) (ongoing)
- Ecological Network Screening Elaborate: Landfill Diklo Remediation, Zadar (2016)
- Ecological Network Screening Elaborate: copper wire production line, capacity 34 t/day, EUROCABLE GROUP, Municipality Jakovlje (2015)
- Ecological Network Screening Elaborate: sewerage system and WWTP for the Split-Solin agglomeration (2015)
- Ecological Network Screening Elaborate: Local Public Seaport Vrnaža (Šibenik) (2014)
- Ecological Network Screening Elaborate: Construction of roundbelt Janjina, Pelješac (2014)
- Ecological Network Screening Elaborate: Construction of roundbelt Potomja and Pijavičnog, Pelješac (2014)
- Ecological Network Screening Elaborate: Construction of connecting road from motorway A1 (junction Ravča) to state road D8 (Drvenik) (2014)
- Ecological Network Screening Elaborate: Viaduct: "Railway yard Zagreb" and the reconstruction of Sarajevska cesta (2014)
- Preliminary Nature Impact Assessment for the II. changes and amendments of the Osijek-Baranja county spatial plan (2013)
- Preliminary Nature Impact Assessment for the V. changes and amendments of the Spatial plan of Zadarska county (2013)
- Preliminary Nature Impact Assessment for Dubrovnik Airport (2013)
- Preliminary Nature Impact Assessment for modifications at Zadar Airport (2013)
- Preliminary Nature Impact Assessment for nautical port Šimuni (2012)
- Preliminary Nature Impact Assessment for irrigation system of Baranja area (2012)
- Preliminary Nature Impact Assessment for Knin bypass (2012)
- Preliminary Nature Impact Assessment for exploitation field Veprštak (2012)
- Preliminary Nature Impact Assessment for exploitation field Zapužane - zdrug (2012)
- Preliminary Nature Impact Assessment for sewerage system and WWTP for the Čakovec agglomeration (2011)
- Preliminary Nature Impact Assessment for irrigation system of Baranja area (2011)
- Preliminary Nature Impact Assessment for Prelog bypass (2011)
- Preliminary Nature Impact Assessment for ferry port Pučišta (2011)
- Preliminary Nature Impact Assessment for exploitation field Giletinci (2011)
- Preliminary Nature Impact Assessment for asphalt base Busišta 2 (2011)
- Preliminary Nature Impact Assessment for nautical port Vrboska (2011)
- Preliminary Nature Impact Assessment for airport Stankovci (2011)
- Preliminary Nature Impact Assessment for Freeway Našice – Pleternica – Lužani (2010)
- Preliminary Nature Impact Assessment for port of nautical tourism Žut, Island of Žut (2010)
- Preliminary Nature Impact Assessment for port of nautical tourism Palmižana, Pakleni otoci (2010)
- Preliminary Nature Impact Assessment for Pig Farm Podlugovi (2009)
- Preliminary Nature Impact Assessment for Pig Farm Čeretinci 1 (2009)
- Preliminary Nature Impact Assessment for Construction of Logistic Centre in Business Zone Jalševac, City of Jastrebarsko (2009)
- Preliminary Nature Impact Assessment for Construction of Industrial Hall in Shipyard Kraljevica (2009)
- Preliminary Nature Impact Assessment for Technological Improvement of Operations of Pirolithic Incinerators for production of VCM (2009)
- Preliminary Nature Impact Assessment for Construction Material Landfill and Recycling Yard Valdemat, City of Umag (2009)
- Preliminary Nature Impact Assessment for Business Centre IT5 (2009)
- Preliminary Nature Impact Assessment for Landfill Jandrin Grm – Novigrad Podravski (2009)
- Preliminary Nature Impact Assessment for Reconstruction of Main Railway M105 Novska – Vinkovci – Tovarnik – State Border – Šid, Section Novska-Okučani (2009)
- Preliminary Nature Impact Assessment for Winery Kneževi Vinogradi (2009)
- Preliminary Nature Impact Assessment for Reservoir Breznica (2009)
- Preliminary Nature Impact Assessment for Reservoir Dubovik (2009)

- Preliminary Nature Impact Assessment for Construction of Sports-recreational Centre within Borders of Jezero-Ružica grad-Hercegovac, City of Orahovica (2009)
- Preliminary Nature Impact Assessment for Pig Farm Andrijaševci 1 (2009)
- Preliminary Nature Impact Assessment for Landfill Trema Gmanje – Sv. Ivan Žabno (2009)
- Preliminary Nature Impact Assessment for Landfill Stražbenica – Gračac (2009)
- Preliminary Nature Impact Assessment for Pig Farm Gaj (2009)
- Preliminary Nature Impact Assessment for Pig Farm Haljevo (2009)
- Preliminary Nature Impact Assessment for Freeway South bypass of Kutina - from State Road D45 to County Road Ž31274 (2009)
- Preliminary Nature Impact Assessment for North bypass of Hrvatska Kostajnica (2009)
- Preliminary Nature Impact Assessment for Tourist Complex in Šipkova Bay (2009)
- Preliminary Nature Impact Assessment for Business Centre in Zagreb (2009)
- Preliminary Nature Impact Assessment for Construction of State Road D116, Section Jelsa-Poljica, 1st Subsection (2009)
- Preliminary Nature Impact Assessment for Sports and Nautical Seaport Jadrija, Šibenik (2009)
- Preliminary Nature Impact Assessment for Shopping Centre Supernova, Buzin (2009)

1.4.2. APPROPRIATE ASSESSMENTS

APPROPRIATE ASSESSMENT AS CHAPTERS IN SEA STUDIES

- Appropriate Assessment for amendments of the Physical plan of Vukovarsko-srijemska County (on going)
- Appropriate Assessment for amendments of the Physical plan of Dubrovačko neretvanska County (on going)
- Appropriate Assessment for Physical plan of Bjelovarsko-bilogorska County (on going)
- Appropriate Assessment for Multiannual program of regulatory and protective water infrastructure and melioration systems construction, for the period 2013-2017 (2015)
- Appropriate Assessment for Spatial Development Strategy of the Republic of Croatia (2015)
- Appropriate Assessment for IPA Cross-Border Cooperation Programme Croatia–Bosnia and Herzegovina-Montenegro 2014-2020 (2015)
- Appropriate Assessment for Croatia-Serbia IPA Cross-Border Cooperation Programme 2014-2020 (2015)
- Appropriate Assessment for Amendments of Physical plan of Požeško-slavonska county (2015)
- Appropriate Assessment for European Regional Development Fund & Cohesion Fund supported Operational Programme 2014 – 2020 (2014)
- Appropriate Assessment for Water Resources Management Plan (2012)
- Appropriate Assessment for Operative program for Transport for the period from 2012 to 2013 (2012)
- Appropriate Assessment for Physical Plan of Primorsko – goranska county (2012)

APPROPRIATE ASSESSMENT AS CHAPTERS IN EIA STUDIES

- Appropriate Assessment for the irrigation system of Vransko polje (on going)
- Appropriate Assessment for the irrigation system of Imotsko polje (on going)
- Appropriate Assessment for the new operational coastline in Batahovina area of luka Dubrovnik (Gruž) (on going)
- Appropriate Assessment for the upgrade of the existing railway track and the construction of the second track of a double-track railway line Križevci-Koprivnica-State Border (2015)
- Appropriate Assessment for Knin south bypass (2015)
- Appropriate Assessment for the new port Sisak (2015)
- Appropriate Assessment for Janjina bypass (2015)
- Appropriate Assessment for Sport and recreational centre „Jezero – Ružica Grad – Hercegovac“, Orahovica within the borders of the Detailed Physical Plan (2013)
- Appropriate Assessment for airport Stankovci (2012)
- Appropriate Assessment for Petrijevcı bypass (2012)
- Appropriate Assessment for exploitation of mineral raw materials (bauxite, carbonate for industrial processing and technical-stone) in the exploitation field "Krusevo", City of Obrovac (2010)
- Appropriate Assessment for Reconstruction of State Road D219, Section Han – State Border B&H (2009)

APPROPRIATE ASSESSMENT STUDIES

- Appropriate Assessment for tourist resort in bay Livka, with a nautical tourism port (island Šolta) (on going)
- Appropriate Assessment for works on watercourse maintenance of the river Kupa (2015)
- Appropriate Assessment for works on watercourse maintenance of the river Una (2014)
- Appropriate Assessment for improvement of exploitation field "Slane stine – Karašica" (2014)
- Appropriate Assessment for extraction of gravel from the river Drava in the location Đuretina from rkm 176 to rkm 176 +400 +870 (2010)

1.5. Other environmental protection reports (for project that are not legally obliged to undergo EIA)

- Environmental protection report for a sewers system of the settlement Udbina (2014)
- Preliminary environmental protection report for construction of the underwater tunnel bridge Zadar – island Ugljan (Pašman) (2014)
- Environmental protection report for a sewers system and wastewater treatment plant – Goričan (2013)
- Environmental protection report for a sewers system and wastewater treatment plant – Orehovica-Podbrest (2013)
- Environmental protection report for a sewers system and wastewater treatment plant – Novo selo na Dravi (2013)
- Environmental protection report for a sewers system and wastewater treatment plant – Belica (2013)
- Environmental protection report for a biomass cogeneration facility, Viridas Biomass, power inder 10MW, Babina Greda Municipality (2012)
- Environmental protection report for a manufacture-business building for concrete reinforcement production, in settlement Pojatno, Town of Zaprešić (2008)
- Environmental protection report for reconstruction of state road D116, section Jelsa - Poljice, 2nd sub-section (2007)
- Environmental protection report for reconstruction of state road D1, section Pađene – Stara Straža (2007)
- Environmental protection report for reconstruction of state road D1, section Knin – Biskupija (2007)
- Environmental protection report for reconstruction of state road D39, section Cista Provo - Šestanovac (2007)
- Environmental protection report for collection, storing and processing of polymer material, Kongora Ltd., Zagreb (2007)
- Environmental protection report for construction of bridge land – Pelješac (2007)
- Environmental protection report for modernization of the thermic medical waste treatment facility in Clinical Hospital Dubrava, Zagreb (2007)
- Environmental protection report for remediation and closing of the landfill „Zagračine“, Sali (2006)
- Environmental protection report for remediation and closing of the landfill „Vardište“, Janjina (2006)
- Environmental protection report for remediation of the communal landfill „Đurđenovac“, Đurđenovac (2006)
- Environmental protection report for remediation of the communal landfill "Teleš", Drnje (2006).
- Environmental protection report for remediation of landfill "Torčec-Rudičevo", Drnje (2006)
- Environmental protection report for remediation of the communal landfill "Vidovac", Karlobag (2006)
- Environmental protection report for remediation of the communal landfill „Ledine“, Đelekovec (2006)
- Environmental protection report for reconstruction of state road D60, section Lovreć-Imotski (2005)
- Environmental protection report expanding polystyrene production, Žitnjak, Dioki, Zagreb (2005)
- Environmental protection report of State Road D-8, West Entrance Šibenik (2003)
- Environmental protection report for Reconstruction of County Road ŽC-3068, Kobilic-Šćitarjevo (2002)

1.6. Reports on the Main project compliance with the environmental protection measures and the monitoring programme prescribed by the Decree on project acceptability

- Report on the Main project compliance with the environmental protection measures and the monitoring programme prescribed by the Decree on project acceptability for Rijeka agglomeration system (on going)
- Report on the Main project compliance with the environmental protection measures and the monitoring programme prescribed by the Decree on project acceptability for changes and amendments of the main project for a part of the WWTP Čakovec projects – anoxic pools (on going)
- Report on the Main project compliance with the environmental protection measures and the monitoring programme prescribed by the Decree on project acceptability for a public, local port Vrnaža – western part of the port (on going)
- Report on the Main project compliance with the environmental protection measures and the monitoring programme prescribed by the Decree on project acceptability for reconstruction of the Petrinja agglomeration water supply system and reconstruction and construction of the Petrinja agglomeration waste water system (2016)
- Report on the Main project compliance with the environmental protection measures and the monitoring programme prescribed by the Decree on project acceptability for connection road: junction Rogovići – Lindarski križ (2015)
- Report on the Main project compliance with the environmental protection measures and the monitoring programme prescribed by the Decree on project acceptability for Dubrovnik airport: temporary building – concrete plant, asphalt plant and crusher – eastern facility (2015)
- Report on the Main project compliance with the environmental protection measures and the monitoring programme prescribed by the Decree on project acceptability for Dubrovnik airport: temporary building – concrete plant, asphalt plant and crusher – western facility (2015)
- Report on the Main project compliance with the environmental protection measures and the monitoring programme prescribed by the Decree on project acceptability for Dubrovnik airport: reconstruction of the main entrance to the airside zone (official passage O3) (2015)
- Report on the Main project compliance with the environmental protection measures and the monitoring programme prescribed by the Decree on project acceptability for Dubrovnik airport: construction of the building C and putting into designated use of the remainder of the dilatation T tunnel (2015)
- Report on the Main project compliance with the environmental protection measures and the monitoring programme prescribed by the Decree on project acceptability for reconstruction and change of use of a hall into bricket raw materials preparation facility, Knauf insulation d.o.o. (2014)

1.7. Reports on a project's impact on water bodies state

- Report on a project's impact on water bodies state for Lišansko field irrigation system, phase 1 (on going)
- Report on a project's impact on water bodies state for Betina-Murter agglomeration (on going)
- Report on a project's impact on water bodies state for freeway Popovec – Marija Bistrica – Zabok with connections to Breznički Hum, section: Andraševac-Mokrice (on going)
- Report on a project's impact on water bodies state for freeway Popovec – Marija Bistrica – Zabok with connections to Breznički Hum, section: Zlatar Bistrica-Andraševac (on going)
- Report on a project's impact on water bodies state for state road D2, Osijek southern bypass, additional construction of the southern lane, section “Corridor Vc” - junction „Tenjska“ (on going)
- Report on a project's impact on water bodies state for southern part of Poreč bypass, section Vrvari – Bijela Uvala (on going)
- Report on a project's impact on water bodies state for Petrijevci bypass (on going)
- Report on a project's impact on water bodies state for railway infrastructure on Zagreb pier (container terminal and railway station), city of Rijeka (2015)
- Report on a project's impact on water bodies state for railway infrastructure on Brajdica pier, city of Rijeka (2015)
- Report on a project's impact on water bodies state for the dock on container terminal at Zagreb pier, city of Rijeka (2015)

1.8. Environmental protection reports for procuring EU funds and programs financing

IPARD Program

IPARD measure 101

- Environmental Protection Report for IPARD Program for Pig Farm Andrijaševci 1, Municipality of Andrijaševci (2010)

IPARD measure 103

- Environmental Protection Report for IPARD Program for Measure 103 for constructing and equipping a fish goods production plant, Municipality Poličnik – investor Teši Tunolov Ltd (2013)
- Environmental Protection Report for IPARD Program for Measure 103 for a fish goods production plant Conex trade Ltd, Town of Trilj (2011)
- Environmental Protection Report for IPARD Program for Measure 103: equipment for herb pasteurization in the medicinal herbs plant, Ljekovito bilje d.o.o., Municipality Kloštar Podravski (2011)
- Environmental Protection Report for IPARD Program for Measure 103 for reconstructing and equipping of a business building for manufacturing of Dalmatian cured meats (prosciutto, pancetta and šokol), Puntica Ltd (2011)
- Environmental Protection Report for IPARD Program for Measure 103 for a business building; processing and conserving of salty fish – anchovies, business zone Kukuzovac, Town of Sinj (2010)
- Environmental Protection Report for IPARD Program for Construction of a Business Building, including Management facilities and Production Facilities of Sea Fish and Fish Products, Business Zone Grabi, Poličnik, Mišlov d.o.o. (2010)
- Environmental Protection Report for IPARD Program for Construction of a Business Building, including Management facilities and Production Facilities of Sea Fish and Fish Products, Business Zone Grabi, Poličnik, Marikomerc d.o.o. (2010)
- Environmental Protection Report for IPARD Program for Construction of Processing and Packing Facilities of Fish Products, Business-Production Zone Čaporice, Trilj (2010)

IPARD measure 302

- Environmental Protection Report for IPARD Program, Measure 302, for a biogas cogeneration plant with 999KWel power (0,999MWel) in Grubišno Polje (2012)
- Environmental Protection Report for IPARD Program for Measure 302 – cogeneration biomass plant, power 9,99 MW, Babina Greda (2012)
- Environmental Protection Report for IPARD Program for Measure 302 – for construction and equipping rural tourism housing, OPG Gvido Prister, Municipality Barilović (2011)

IPARD measure 301

- Environmental Protection Report for IPARD Program for Measure 301 – sewers network in Municipality Proložac (2012)
- Environmental Protection Report for IPARD Program for construction of an SBR wastewater treatment facility (Equivalent of residents - 2000), Zemunik Donji (2012)
- Environmental Protection Report for IPARD Program for reconstruction of a unsorted road from Chapel of St. Florian in settlement Florian to the Chapel of St. Filip and Jakov in settlement Letovčan Novodvorski and for branch to Tomaševac in the area of town Klanjac (2011)

SAPARD program

- Environmental Protection Report for SAPARD Program for Upgrading an Existing Greenhouse, Type "Multipla", Kloštar Ivanić (2009)
- Environmental Protection Report for SAPARD Program for Upgrading a slaughter house machinery, Gospić (2008)
- Environmental protection report of construction of business-construction facility, Pojatno, City of Zaprešić (2008)
- Environmental protection report for SAPARD program for construction of intensive agricultural production - greenhouse vegetable production (tomatoes), Krapinske toplice (2008)
- Environmental protection report for SAPARD program for reconstruction of the meet processing industry, Kotoriba (2008)

- Environmental protection report for SAPARD program for construction of a facility for fish delivery, storage and processing (freezing process line with brine 4 tons/hour with line for filling and bagging), Plovanija (2007)
- Environmental protection report for SAPARD program for construction of a production and business building "Ostrea" (factory for fish storage and processing – salting-maturing and filleting), Stankovci (2007)
- Environmental protection report for SAPARD program for investing into a fish can packing line, Rovinj (2007)
- Environmental protection report for SAPARD program for construction of a beef farm, Vrbovec (2007)
- Environmental protection report for SAPARD program for equipment for processing and confectioning young wheat grass, Karlovac (2007)
- Environmental protection report for SAPARD program for construction of a facility for fish delivery, storage and processing (freezing process line with brine 4 tons/hour with line for filling and bagging), Trilj (2007)
- Environmental protection report for SAPARD program for building of a hall and equipment for processing and confectioning truffles, Municipality Plovanija, Istria (2007)

1.9. Spatial and ecological analyses

- Environmental Site Assessment for potential location of solar power plant, Kaštela, Split, Croatia (2011)
- Route Study for the Main Gas Pipeline Kozarac – Sisak DN 1000/100 bar (2011)
- Route Study for the International Gas Pipeline Dubrovnik – Prevlaka - Dobreć (MN), DN 1000/75 bar (2010)
- Route Study for the interconnectional pipeline between Croatia and Slovenia, section Podkilavac (CRO) to Mala Bukovica (SLO) (2010)
- Route Study for the Main Gas Pipeline Ploče - Dubrovnik, DN 1000/75 bar (2010)
- Route Study for the Main Gas Pipeline Bosiljevo-Zlobin (2009)
- Route Study for the International Gas Pipeline Lička Jesenica-Bihać (2009)
- Route Study for the Main Gas Pipeline Osijek-Donji Miholjac (2009)
- Route Study for the Main Gas Pipeline Osijek-Vukovar (2009)
- Route Study for the Main Gas Pipeline Zlobin-Rupa (2009)
- Route Study for the Main Gas Pipeline Vukovar Negoslavci (2009)
- Location determination of Waste Management Centre for Sisačko-moslavačka County (2008)
- Location determination of Ferry Seaport for the City of Korčula (2008)
- Expert basis for Preliminary design preparation for unsorted communal waste in Primorsko - Goranka County (2008)
- Environmental Review for Pre-Feasibility Study for Sava River Basin Remediation (2007)
- Spatial Analysis for EIA for Lika and Dalmatic Gas Pipeline System Construction, Šibensko-kninska County (2007)

1.10. Landscape studies and design preparation

1.10.1. LANDSCAPE STUDIES

- Re-cultivation Study for the Bor mining area, Serbia (2012)
- Landscape study for Vile Ravní tourist zone (2010)
- Landscape study for town of Kotor roundbelt (2010)
- Landscape study for the area of the urban plan for the area of Millerov Breg (2009)
- Landscape study for the area of the urban plan for tourist zones Perna and Vinogradine (2010)

1.10.2. LANDSCAPE DESIGN

- Main landscape design for railway Hrvatski Leskovac – Karlovac (ongoing)
- Landscape design for Kraljičina plaža, Nin (2015)
- Preliminary landscape design for railway Hrvatski Leskovac – Karlovac (2014)
- Main landscape design for Konzum shopping center in Lopar (2012)
- Preliminary landscape design for wind power plant Kom-Orjak-Greda (2011)

- Landscape project - The main landscape project of landscaping work for the business – commercial mall Euroyachting, Zagreb (2009)
- Landscape project - The main landscape project of Ulice 7, Zagreb (2009)
- Landscape project of Svetice Sports Centre, Zagreb (2007)
- Landscape project of excavation field Široko Brdo - Vrata (2007)
- Project of biological recovery of the excavation field Straža – Vinceli, Đurmanec Municipality (2007)
- Project of biological recovery of the excavation field „Ivanec – Zaprešić“ (2007)
- Landscape project of Markuševačka street in a residential area of the city of Zagreb (2006)
- Landscape project of Trpanjska street in a residential area of the city of Zagreb (2006)
- Landscape project of the landfill Vitika in the town of Đakovo (2006)

1.11. Pollution prevention, control and remediation

1.11.1. DUE DILIGENCE REPORTS AND ENVIRONMENTAL AUDITS

- Environmental, Health and Safety Audit for factory Denona d.o.o., Zagreb (2016)
- Environmental, Health and Safety Audit for factory COMPROM PLUS d.o.o., Varaždin (2016)
- Environmental, Health and Safety Audit for factory MAR-MAR, Zagreb (2015)
- Environmental, Health and Safety Audit for plant of the company Alstom, Karlovac (2015)
- Environmental due diligence for ZaBa real estate property at Praška 2-4 in Zagreb (2015)
- Environmental due diligence for MET target company (2015)
- Environmental Health & Safety (EHS) auditing and other EHS compliance and legal services for Hospira factory (2012)
- Environmental Due diligence report for Zagreb brewery, Zagreb, Croatia (2012)
- North Western Regional Wastewater Project – Technical, Environmental and Social Due Diligence Report., Project ID 28462 (2010), financed by EBRD
- Environmental Due diligence for factory in Plaški, Municipality of Plaški (2010)
- Environmental and Social Due Diligence with Traffic Solutions for several locations within Zagreb area for a purpose of constructing the IKEA shopping centre (2008)
- Due Diligence and Environmental Audit Report of Zagreb Holding Company – “Zagreb Holding Consolidation and Bond Financing Project” financed by EBRD (2008).
- Environmental Due Diligence - Environmental Site Assessment Report, Samobor (2007.)

1.11.2. WASTE MANAGEMENT PLANS/ REPORTS

WASTE MANAGEMENT PLANS

- Waste management plan for the tourist zone on island Obonjan (during construction and operation) (on going)
- Waste management plan for the city of Šibenik for the period 2016-2022 (on going)
- Waste management plan for the city of Ogulin (2015)
- Waste Management Plan revision for the city of Glina (2015)
- Options analysis for disposal and use of ash created by biomass combustion in the facility „UNI VIRIDAS“, Babina Greda (2015)
- Waste Management Plan for the Municipality of Lastovo (2010)
- Waste Management Plan for the Municipality of Velika (2010)
- Waste Management Plan for the Municipality of Molve (2009)
- Waste management plan for the city of Stari Grad (2009)
- Waste Management Plan for the Municipality of Sv. Ivan Žabno (2009)
- Waste management plan for the city of Ogulin (2009)
- Solid Waste Management Study for Zagrebačka County, Republic of Croatia (2008)
- Waste management plan for the Gornja Vrba Municipality (2008.)
- Waste management plan for the city of Glina (2008)
- Waste Management Plan for the City of Šibenik (2008)
- Waste Management Plan for the City of Hrvatska Kostajnica (2008)
- Waste Management Plan for the Municipality of Virje (2008)
- Waste management plan for the city of Nova Rača (2007)
- Waste management plan for the city of Knin (2006)

WASTE MANAGEMENT REPORTS

- Amends of waste management report for Excido d.o.o., for collecting, temporary storage of hazardous waste and processing hazardous medicinal waste, at location Josipa Kozarca 25, 31207 Tenja, regarding the implementation on a new machine (on going)
- Amends of waste management report for Excido d.o.o., for collecting, temporary storage and processing of non-hazardous waste or sending it out for recycling, at location Josipa Kozarca 25, 31207 Tenja, regarding the implementation on a new machine (on going)
- Waste management report for EKOMETAL d.o.o., for collecting (S) and recycling of non-hazardous waste (R13), at location Briševo-Mazije (on going)
- Waste management report for Unijapapir d.o.o., for collecting (S) and recycling of non-hazardous waste (R12 and R13), at location Zagreb, Sarajevska 3 – JAKUŠEVAC FACILITY (on going)
- Waste management report for Brković d.o.o., for collecting (S) and recycling of non-hazardous waste (R13 and R3), at location lokaciji Industrijska 3 10431 Sveta Nedjelja (on going)
- Waste management report for DUGOSELSKI KOMUNALNI I PODUZETNIČKI CENTAR d.o.o., for collecting (S) emergency collecting (IS) and disposal of communal and non-hazardous production waste with procedure D1 – Disposition of waste on or in the ground (eg. landfills etc.), at location non-hazardous landfill Andrilovec (on going)
- Waste management report for KOMUNALNE USLUGE CRES LOŠINJ d.o.o., for collection, transport, temporary storage, processing and disposition of communal and non-hazardous production waste, at location Pržić cc, Cres (on going)
- Waste management report for KOMUNALNE USLUGE CRES LOŠINJ d.o.o., for collection, transport, temporary storage, processing and disposition of communal and non-hazardous production waste, at location Kalvarija bb, Mali Lošinj (on going)
- Waste management report for Komunalno društvo Polača d.o.o., for collection and disposition of communal and non-hazardous production waste, at location K.O. Jagodnja Gornja, k.č. 415/114 (on going)
- Waste management report for Unijapapir d.o.o., for collecting (S) and recycling of non-hazardous waste (R12 and R13), at location Zagreb, Eugena Podaupskoga 6 – RJ ZAGREB (on going)
- Waste management report for Čistoća Zadar d.o.o., for collection and temporary storage of hazardous waste at location Ulica Stjepana Radića 33, 23000 Zadar (on going)
- Waste management report for PLAMEN d.o.o., for recycling non-hazardous waste (R13 and R4), at location k.o. Požega, k.č. br. 1587/1 (on going)
- Waste management report for Legis d.o.o., for other processing of non-hazardous waste (pre-recycling preparation or disposition), at location Zagreb, Čulinečka cesta 252 (on going)
- Waste management report for za Odlagalište Sirovina d.o.o., for collection, transportation and temporary storage, at location Ive Dulčića 6 i 6a, 23000 Zadar (permit obtained, 2015)
- Waste management report for za Odlagalište Sirovina d.o.o., for temporary storage and processing hazardous waste at location Ive Dulčića 6 i 6a, 23000 Zadar (permit obtained, 2015)
- Waste management report for Unijapapir d.o.o., for collecting (S) and recycling non-hazardous waste (R12 and R13), at location Kutina, Frana Krste Frankopana 84a – facility Kutina (permit obtained, 2015)
- Waste management report for Unijapapir d.o.o., for collecting (S) and recycling non-hazardous waste (R12 and R13), at location Koprivnica, Dravska 24 - RJ Koprivnica (permit obtained, 2015)
- Waste management report for Unijapapir d.o.o., for collecting (S) and recycling non-hazardous waste (R12 and R13), at location Sisak, Galdovačka bb – facility Sisak (permit obtained, 2015)
- Waste management report for Unijapapir d.o.o., for collecting and storing non-hazardous waste and other waste processing prior to recycling it or desposing of it, at location Nova Gradiška, Baru na Trenka 30 a (permit obtained, 2015)
- Waste management report for Unijapapir d.o.o., for collecting and storing non-hazardous waste and other waste processing prior to recycling it or desposing of it, at location Slavonski Brod, Ivana Antunovića 43 (permit obtained, 2015)
- Waste management report for Unijapapir d.o.o., for collecting (S) and recycling non-hazardous waste (R12 and R13), at location MOL-factory, Lički Osik (permit obtained, 2015)
- Waste management report for Excido d.o.o., for collecting, temporary storage of hazardous waste and processing hazardous medicinal waste, at location Josipa Kozarca 25, 31207 Tenja (permit obtained, 2015)
- Waste management report for Excido d.o.o., for collecting, temporary storage and processing of non-hazardous waste or sending it out for recycling, at location Josipa Kozarca 25, 31207 Tenja (permit obtained, 2015)

- Waste management report for DUROPACK BELIŠĆE d.o.o., for recycling non-hazardous waste for material purposes, location Trg Ante Starčevića 1 31551 Belišće (permit obtained, 2015)
- Waste management report for Čistoća Zadar d.o.o., for collection, transport, temporary storage, processing (separation) and disposal of non-hazardous and inert waste, at location Diklo landfill (permit obtained, 2014)

1.11.3. SANITATION PROGRAMS AND PLANS

- Sanation program: landslide „Harmica Dubravička“, Municipality Brdovec (2015)
- Sanation program: landslide Duzluk-1a on county road ŽC4030 (section Orahovica–Duzluk) (2015)
- Sanation program: landslide „Biškupovec 1 i 2“, Town Ivanec (2015)
- Sanation program: landslide „Jurjevčani“, Town Jastrebarsko (2015)
- Sanation program: landslide „Malunje“, Town Jastrebarsko (2015)
- Sanation program: landslide „Paljugi-tihočaj“, Town Jastrebarsko (2015)
- Sanation program: landslide „Prhoć“, Town Jastrebarsko (2015)
- Sanation program: landslide „Prodin dol“, Town Jastrebarsko (2015)
- Sanation program: landslide „Žudetići“ on county road 5209 (2015)
- Sanation program of the factory area of the former ferro-alloys factory in Dugi Rat (2015)
- Sanitation Plan for sanitary landfill „Poljanice“, Velika Municipality (2013)
- Sanitation Plan for sanitary landfill „Križic-Srijedska“, Ivanska municipality (2012)
- Sanitation Plan for unauthorized dump sites Rašelje on the island Zlarinu (2008.)

1.12. IPPC documentation

1.12.1. STRENGTHENING CAPACITIES / CONSULTING SERVICES

- Implementacija IPPC/IE Direktive za djelatnost intenzivnog uzgoja svinja i peradi, Srbija (u tijeku)

1.12.2. DOCUMENTATION NECESSARY FOR OBTAINING THE ENVIRONMENTAL PERMIT (IPPC)

- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for a pig farm, Krmiva d.o.o., Municipality Pisarovina (in procedure)
- Expert basis for acquiring the environmental permit for a communal waste landfill Andriševac, Dugo Selo (in procedure)
- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for PAN paper factory Zagreb d.o.o. (in procedure)
- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for a dairy factory – KIM mljekara Karlovac d.o.o. (in procedure)
- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for brickyard Cerje Tužno (2014)
- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for landfill Diklo, Town of Zadar (2014)
- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for rock wool production plant Knauf Insulation d.o.o., Novi Marof (2014)
- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for Dukat d.d. factory Sirela, Bjelovar (2013)
- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for Dukat d.d., Zagreb (2013)
- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for Poultry Farm Sv. Đurđ (2012)
- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive chicken farm, Municipality Kotoriba (2012)
- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for farm Čeretinci, Municipality Markušica (2012)
- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for farm Andrijaševci, Municipality Andrijaševci (2012)

- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for farm Kozarac, Municipality Čeminac (2012)
- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for Rockwool factory Potpićan (2012)
- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for an existing factory of casts made out of grey cast, Plamen d.o.o., Požega (2012)
- Existing Conditions Analysis and Report on Harmonization of Existing Production Facilities for Acquiring Environmental Permit for Omial Novi, Zakučac (2012)
- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for Belišće d.d. (2012)
- Existing Conditions Analysis for Pig Farm Podlugovi (2012)
- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for Waste Management centre Piškornica (2012)
- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for rock wool production plant Knauf Insulation d.o.o., Novi Marof (2011)
- Existing Conditions Analysis for Belišće d.o.o. facility – impact on Ecological Network (2011)
- Existing Conditions Analysis for Pig Farm Kozarac (2011)
- Existing Conditions Analysis for Pig Farm Andrijaševci (2011)
- Existing Conditions Analysis for Pig Farm Čeretinci (2011)
- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for Pig Farm Sokolovac, Municipality of Kneževi Vinogradi (2011)
- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for Pig Farm Gaj, Municipality of Draž (2011)
- Documentation for Acquiring Environmental Permit in Accordance with IPPC Directive for Pig Farm Haljevo, Municipality of Čeminac (2011)

1.13. Environmental protection plans and programs

1.13.1. ENVIRONMENTAL ACTION PLANS

- Emergency intervention measures plan for bulk cargo terminal, Osijek port (2014)
- Environmental and Social Action Plan for the Ionian – Adriatic Pipeline (IAP) route in Montenegro (2014)
- Monitoring of preparation of the Environmental and Social Action Plan for the Ionian – Adriatic Pipeline (IAP) route in Albania (2014)
- Environmental Action Plan for PORSCHE INTER AUTO d.o.o. (2007)
- Environmental Action Plan for OKIROTO d.o.o.(2006)
- Environmental Action Plan for V.P.DUNAPACK d.o.o.(2004)
- Environmental Action Plan for LIPOVAC d.d. (2003)

1.13.2. ENVIRONMENTAL MANAGEMENT PLANS

- Environmental Management Plan for the Ionian – Adriatic Pipeline (IAP) route in Montenegro (2014)
- Monitoring of preparation of the Environmental Management Plan for the Ionian – Adriatic Pipeline (IAP) route in Albania (2014)
- Environmental Management and Monitoring plan for Zagreb Airport (2013) – as local partners
- Environmental Management Plan for for the Remediation of the Tailing Dump facilities and Mining Waste Dump Sites at Bor Mining area (2012)
- The Inland Waters Project Feasibility Study and Design for Dugo Selo: Environmental Management Plan (2010)
- Environmental Management Plan of Irrigation system Pavlomir (2010)
- Environmental Management Plan of Irrigation system Kapinci-vaška (2010)
- Environmental Management Plan of Irrigation System PŠŠ Vinkovci (2010)
- Environmental Management Plan of Irrigation system Baranja (2010)
- Environmental Management Plan of Irrigation System Orubica (2010)
- Environmental Management Plan of Irrigation System Kaptol (2010)
- Environmental Management Plan for Demolition of Borovo Complex, Vukovar (2009)
- Environmental Management Plan for the construction of the Pelješac Bridge (2007)

1.13.3. AIR QUALITY IMPROVEMENT PROGRAMS

- Program on Protection and Improvement of Air Quality in Zadar county (2011)
- Program on Protection and Improvement of Air Quality in town of Velika Gorica (2010)
- Program on Protection and Improvement of Air Quality in the City of Daruvaru (2009)
- Air Protection program for environmental Protection Program of Sisačko-moslavačka County (2009)
- Program on Protection and Improvement of Air Quality in Osječko – baranjska County 2009 – 2013 (2008)
- Environmental State Report with Air Quality Improvement Mitigation Measures based on Ambient Air Quality Monitoring in Međimurska County (2008)
- Remediation Program for Air Quality Improvement in the Area of Rafinerija nafte Rijeka –Mlaka (2007)
- CO2emission Reduction Program for Belišće d.d. (2007)
- Emission Reduction Program for Belišće d.d. (2007)
- Environmental State Report with Air Quality Improvement Mitigation Measures Varaždinska County (2007)
- Environmental State Report with Air Quality Improvement Mitigation Measures based on Ambient Air Quality Monitoring in Krapin sko-zagorska County (2007)
- Environmental State Report with Air Quality Improvement Mitigation Measures Vukovarsko – srijemska County (2007)
- Environmental State Report with Air Quality Improvement Mitigation Measures based on Ambient Air Quality Monitoring in Zagrebačka County (2006)

1.14. Financial and Social Assessment

1.14.1. INFRASTRUCTURAL PROJECTS – TRAFFIC SECTOR

- Feasibility Study for connection of the separate territory of Republic of Croatia (2015)
- Feasibility Study on the Hungarian-Croatian cross border accessibility (KÖZOP-3.5.0-09-11-2012-0004) (2015)
- Feasibility study and project documentation for remediation, development and navigation of Sava River Waterway, PCI (2008)

1.14.2. INFRASTRUCTURAL PROJECTS – ENERGY SEKTOR

- Infrastructure Projects Facility Technical Assistance Window (IPF TA) Western Balkans; EuropeAid/128073/C/SER/MULTI; WB5-HR-ENE-02 Cost benefit analysis of evacuation pipeline Omišalj – Rupa (2013)
- Financial analysis (cost-benefit and cost-effectiveness analysis) for EIA JANAF Gas Pipeline project ("Družba Adria") for the Faculty of Economics/Croatia (2005)

1.14.3. INFRASTRUCTURAL PROJECTS –WASTE MANAGEMENT

- Techno-economical Concept of Waste Management for the Island of Hvar (2008)
- Feasibility Study of Regional waste management for Primorsko-Goranska County (2006-2007)
- Feasibility Study of Regional waste management for Licko-Senjska County (2006)

1.14.4. INFRASTRUCTURAL PROJECTS – SEWERAGE SYSTEMS, WATER STRUCTURES, IRRIGATION SYSTEMS AND FLOOD PROTECTION SYSTEMS

- Preparation of a part of the Feasibility study as part of study, project and tender documentation for the integral wastersupply and sewerage system of agglomerations Sinj, Trilj, Otok and Dicmo (on going)
- Preparation of a part of the Feasibility study as part of study, project and tender documentation for water utility infrastructure Vela Luka agglomeration 2015.-2016. (on going)

- Preparation a part of the Feasibility study as part of study, project and tender documentation for application for construction of water utility infrastructure agglomeration Zaprešić (on going)
- Amendments to Feasibility Study for sewerage system and waste water treatment plant for Rijeka agglomeration (on going)
- Feasibility study for a flood protection project on the Neretva watershed, preparation of a part of the study (2016)
- Amendments of the Feasibility study for sewerage system and WWTP of Samobor agglomeration (2015)
- Feasibility study for public sewerage system and waste water treatment for Udbina (preparation of part of FS Study and Environmental Report) (2015)
- Development of EU Structural Funds project pipeline for protecting Croatia's water resources through improved water supplies and integrated waste water management systems in Central Dalmatia – for agglomerations: Split-Solin, Sinj and Jelsa-Vrbovska – LOT2 with identification no EuropeAid 133214/D/SER/HR (2015)
- Development of EU Structural Funds project pipeline for protecting Croatia's water resources through improved water supplies and integrated waste water management systems in Istria and Continental Croatia – for agglomerations: Donja Dubrava, Mursko Središće, Ivanić Grad, Jastrebarsko, Ivanec and Novska – LOT2 with identification no EuropeAid 133215/D/SER/HR (2015)
- Amendments of the cost-benefit analysis and Application as part of the Feasibility study for sewerage system and waste water treatment plant of the Varaždin agglomeration (2015)
- Preparation of Feasibility study and Application of the project – sewerage system and waste water treatment plant of the Varaždin agglomeration and preparation of Environmental Impact Assessments for waste water treatment plant of Varaždin agglomeration (2014)
- Preparation of Study documentation for the sewage and waste water treatment systems of the Kutina agglomeration (EU funded project) (2014)
- Feasibility Study for the construction of Sewerage System and Waste Water Treatment Plant for Varaždinske Toplice with Cost-Benefit Analysis and Application for EU Cohesion Funds (2013)
- Study on Institutional Options in the Water Supply and Wastewater Sector in Croatia” HV/TA-A 1.2.3 (2012)
- HV/QCBS/GEF - C4 Consulting Services for Feasibility Studies for 2 Wastewater Treatment Plants (Medulin and Trsteno) (2012)
- Preparation of study documentation of sewerage system of Čakovec agglomeration: Feasibility Study and application of the project to EU funds and preparation of Environmental Impact Assessment for intervention (financed from IPA Pre-Accession Fund) (2012)
- Project documentation preparation (FS) and IPA Application for Bjelovarsko-bilogorska county water supply project, financed by the European Commission (2011)
- Feasibility Studies for 3 Wastewater Treatment Plants (Porec, Cres and Kaštelir), Coastal Cities Project, HVJP 33/08, GEF Grant HV-ISAPM-C9.2/GEF-C.2, Republic of Croatia (2011)
- Project No. 7453-HR Inland waters Loan IBRD 7453/ HR: Feasibility Study for the sewerage system and WWTP in city of Dugo Selo and Rugvica municipality with Appraisal Documents of Wastewater Sewerage and Treatment Investments Dugo Selo and Rugvica (2010)
- Investment Study and other project documentation including project application (IPA fond) for remediation of water supply and sewerage system for town Knin, as part of the project TA for projects of water supply and sewerage system enhancements in towns Knin and Drniš, CARDS 2002 EuropeAid/120957/C/SV/HR (2005/2006/2007)
- Investment Study and other project documentation including project application (IPA fond) for remediation of water supply and sewerage system for town Drniš, as part of the project TA for projects of water supply and sewerage system enhancements in towns Knin and Drniš, CARDS 2002 EuropeAid/120957/C/SV/HR (2005/2006/2007)

1.14.5. INDUSTRIAL FACILITIES

- Feasibility study for facilities for production of organic-mineral fertilizer, Ivanić Grad, Ingra (2008)
- Feasibility study for bio-diesel production facility, Beli Manastir (2008)

1.14.6. TOURISM SECTOR

- Preparation of the charges strategy for National parks and Nature park in Croatia, based on the market state, UNDP (on going)

- Financial analysis for EuropeAid project Support to Maximise the Socio-Economic Development Effects of Sveto Brdo Mountain Tourism Resort for Lika - Senj County (2007-2008)
- Feasibility study for Ski-resort “Bijela Kosa”, town Vrbovsko (2005-2006)
- Feasibility study/financial analysis of tourist Gondola construction from Skrad - Zeleni Vir; Financial/Economical Estimates (2005-2006)

1.14.7. OSTALI PROJEKTI

- Feasibility study for protection from soil salination increase and protection of the lower Neretva waters (u izradi)
- UNDP: Provision of services of producing pre-feasibility studies, project conceptual design and improvement of project idea/fiches, for the project ideas in the area of DEVELOPMENT OF TOURISM DESTINATION, INFRASTRUCTURE AND RELATED SERVICES (Protection and rescue), in the framework of the project: “Preparing the ground for EU funds: Creating a pipeline of project ideas for Croatia’s less developed areas” (2014)
- UNDP: Provision of services of producing pre-feasibility studies, project conceptual designs (incl. revision of the existing), business and management plans and improvement of project idea/fiches, for the project ideas in the area of SCIENCE, BUSINESS INFRASTRUCTURE AND SUPPORT TO ENTREPRENEURSHIP, in the framework of the project: “Preparing the ground for EU funds: Creating a pipeline of project ideas for Croatia’s less developed areas” (2014)
- Financial and Economic Analysis of Dutch Government funded project “Strategic Impact Assessment (SEA) Neretva Bay and surrounding Adriatic Sea (Polluters Identification and Assessment)” (2006)

1.15. Environmental monitoring

1.15.1. REPORTS AND PROGRAMS ON ENVIRONMENT STATE

- Report of determining limit amounts for ammonium emissions according to the BREF for cement industry (2015)
- Report on waste water disposal impacts on the sewerage system and Zagreb central WWTP function for an existing plant Dukat d.o.o. – facility Zagreb (2015)
- Preparation of Environmental monitoring program including the Ecological Network for bulk cargo terminal in Osijek harbour (2014)
- Inventarization of greenhouse gases and measures for relieving the climate change for the Second national communication report, Montenegro, UNDP (2013)

1.15.2. AMBIENT AIR MONITORING AND PREPARATION OF AIR QUALITY REPORTS

- Ambient Air Monitoring at WWTP Kaštelir (on going)
- Ambient Air Monitoring at WWTP Mali Lošinj (on going)
- Ambient Air Monitoring landfill Diklo, Zadar (on going)
- Ambient Air Monitoring at WWTP Karlovac (2015)
- Ambient Air Monitoring at WWTP Kaštelir (2015)
- Ambient Air Monitoring at WWTP Šibenik (2015)
- Ambient Air Monitoring at WWTP Sisak (while in construction)(2015)
- Ambient Air Monitoring, Municipality Gradec (2015)
- Ambient Air Monitoring, Očura quarry (2015)
- Ambient Air Monitoring at WWTP Cetrar – Zadar (2015)
- Ambient Air Monitoring, Očura quarry (2014)
- Ambient Air Monitoring in the area of WWTP Zadar (2014)
- Ambient Air Monitoring in the area of WWTP Slavonski Brod (2014)
- Ambient Air Monitoring in the area of WWTP Našice (2014)
- Ambient Air Monitoring, Očura quarry (2013)
- Ambient Air Monitoring for the purpose of defining zero state of environment at the location of waste management centre Biljane Donje, Zadar county (2013)
- Ambient Air Monitoring, Očura quarry (2012)
- Ambient Air Monitoring, in Gerovo (2012)

- Ambient Air Monitoring in Municipality of Viškovo (2012)
- Ambient Air Monitoring in Town of Varaždin (2012)
- Ambient Air Monitoring in Town of Pazin (2012)
- Ambient Air Monitoring, Očura quarry (2011)
- Ambient Air Monitoring, Imotski landfill site (2011)
- Ambient Air Monitoring, Dugopolje (2011)
- Ambient Air Monitoring, Duga resa (2011)
- Ambient Air Monitoring, Rockwool factory (2010)
- Ambient Air Monitoring, Očura quarry (2010)
- Ambient Air Monitoring, Waste Landfill in Belišće (2010)
- Ambient Air Monitoring, Daruvar (2010)
- Ambient Air Monitoring along Zagreb-Split-Dubrovnik Highway, Section Bosiljevo-Dugopolje (2010)
- Ambient Air Monitoring, Zadarska County (2009)
- Report on Special Ambient Air Monitoring, Quarry "Očura", HOLCIM (2010)
- Report on Special Ambient Air Monitoring, Sand Mill "Jerovec,", IGM (2010)
- Ambient Air Monitoring for Determination of Polluters and Level of Air Pollution in the Area of Settlement Čička Poljana (2009)
- Ambient Air Monitoring, Buzet (2009)
- Ambient Air Monitoring, Slavonski Brod (2009)
- "Zero-state" Ambient Air Monitoring, Rugvica, UIH In c. (2009)
- Annual Report on Ambient Air Quality Monitoring on the Territory of the Republic of Croatia for 2008 (2009)
- Ambient Air Monitoring, Composting Facility, Kloštar Ivanić, Eko-FLOR (2008)
- Report on Special Ambient Air Monitoring, Quarry "Očura", HOLCIM (2008)
- Report on Special Ambient Air Monitoring, Sand Mill "Jerovec,", IGM (2008)
- Ambient Air Monitoring, Popovača (2008)
- Ambient Air Monitoring, Popovača (2008)
- Ambient Air Monitoring along Zagreb-Split-Dubrovnik Highway, Section Bosiljevo-Dugopolje (2008)
- Ambient Air Monitoring, Waste Landfill "Kokojevica", Korčula (2007)
- Ambient Air Monitoring, Lura d.d. (2007)
- Report on Special Ambient Air Monitoring, Quarry "Očura", HOLCIM (2007)
- Report on Special Ambient Air Monitoring, Sand Mill "Jerovec,", IGM (2007)
- Ambient Air Monitoring and Air Pollution Assessment on wider area of settlement Velika Gorica for purpose of Ambient Air Monitoring Station Determination (2007)
- Location Determination Study for Ambient Air Stations in for the Town of Velika Gorica based on Ambient Air Monitoring on several locations in wider town area (2007)
- Report on Ambient Air State in Varaždinska County based on Ambient Air Monitoring on several locations in Varaždinska County (2007)
- Report on Ambient Air State in Krapinsko-zagorska County based on Ambient Air Monitoring on several locations in Krapinsko-zagorska County (2007)
- Report on Ambient Air State in Vukovarsko-Srijemska County with proposition on local ambient air stations network, based on Ambient Air Monitoring on several locations in Vukovarsko-Srijemska County (2007)
- Ambient Air Monitoring, Composting Facility, Kloštar Ivanić, Eko-FLOR (2007)
- Special Ambient Air Monitoring during self-combustion of Waste Landfill Stanišće, Grad Hvar (2006)
- Ambient Air Monitoring, Waste Incinerator „Herbos“, Sisak (2006)
- Ambient Air Monitoring, Waste Incinerator „Herbos“, Sisak (2006)
- Report on Special Ambient Air Monitoring, Quarry "Očura", HOLCIM (2006)
- Report on Special Ambient Air Monitoring, Sand Mill "Jerovec,", IGM (2006)
- Ambient Air Monitoring, Quarry „Gradišće“, Žminj (2006)
- Ambient Air Monitoring, Quarry „Široko brdo“, Vrata (2006)
- Report on Ambient Air State in Krapinsko-zagorska County based on Ambient Air Monitoring on several locations in Krapinsko-zagorska County (2006)
- Report on Ambient Air State in Zagreb County based on Ambient Air Monitoring on several locations in Zagreb County (2006)
- Ambient Air Monitoring, Sisak (2006)
- Ambient Air Monitoring, Topusko (2006)
- Ambient Air Monitoring, Buzet (2006)
- Ambient Air Monitoring, Varaždin (2006)

- Ambient Air Monitoring along Zagreb-Split Highway (2006)
- Ambient Air Monitoring, Waste Landfill Town of Buzet (2005)
- Ambient Air Monitoring, Waste Landfill „Dolci“, Stari Grad (2005)
- Ambient Air Monitoring, Waste Landfill „Stanišće“, Town of Hvar (2005)
- Ambient Air Monitoring, Waste Landfill „Prapatna“, Jelsa (2005)
- Ambient Air Monitoring, wider area of Waste Landfill in Town of Buzet (2005)
- Ambient Air Monitoring, Quarry „Sandarovo“, Kanfanar (2005)
- Ambient Air Monitoring, Quarry "Križarovica" (2005)
- "Zero-state" Ambient Air Monitoring, Milotski Breg, Žminj (2005)
- Ambient Air Monitoring, Topolovac-Sisak (2005)
- Ambient Air Monitoring, Galdovo-Sisak (2005)
- "Zero-state" Ambient Air Monitoring, Golaš (2005)
- Ambient Air Monitoring along Zagreb-Split Highway (2005)
- Ambient Air Monitoring, Waste Landfill Sodol, Ogulin (2004)
- Ambient Air Monitoring, Quarry "Podbadanj", Crikvenica (2004)
- Ambient Air Monitoring, Quarry "Očura", Očura (2004)
- Ambient Air Monitoring, Quarry "Jerovec", Jerovec (2004)
- Ambient Air Monitoring, Varaždinska County (2004)
- Ambient Air Monitoring along Zagreb-Split Highway (2004)
- Ambient Air Monitoring, Waste Landfill Duplje, Novi Vinodolski (2003)
- Ambient Air Monitoring, Meat Processing Industry Pazin d.d., Sveti Petar u Šumi (2003)
- Ambient Air Monitoring, Quarry "Straža – Vinogradi", Đurmanec (2003)
- Ambient Air Monitoring, Quarry "Očura", Očura (2003)
- Ambient Air Monitoring, Quarry "Jerovec", Jerovec (2003)
- Ambient Air Monitoring, Industrija nafte d.d., Rijeka (2002)
- Ambient Air Monitoring, Asphalt Base "Kompolje", Otočac (2002)
- Ambient Air Monitoring, Quarry "Očura", Očura (2002)
- Ambient Air Monitoring, Quarry "Jerovec", Jerovec (2002)
- Ambient Air Monitoring, Waste Landfill Kneginec Gornji, Kneginec Gornji (2001)
- Ambient Air Monitoring, Industrija nafte d.d., Rijeka (2001)
- Ambient Air Monitoring, Quarry "Očura", Očura (2001)
- Ambient Air Monitoring, Quarry "Jerovec", Jerovec (2001)
- Ambient Air Monitoring, Quarry "Stoja", Pula (2001)
- Ambient Air Monitoring, Quarry "Rakalj", Maškun rudarsko d.d. (2001)
- Ambient Air Monitoring, Quarry "Podrola", Rakalj (2001)
- Ambient Air Monitoring, Quarry "Broćanac", Slunj (2001)
- Ambient Air Monitoring, Zoljani (Cement Production Facility), Našice (2001)
- Ambient Air Monitoring, Quarry "Ivanec", Ivanec (2001)
- Ambient Air Monitoring, Shopping City Zagreb, Zaprešić (2001)
- Ambient Air Monitoring, WWTP, Valkane, Pula (2001)
- Ambient Air Monitoring, Dalekovod (future Zinc Processing Facility), Dugo Selo (2000)
- Ambient Air Monitoring, Uljanik brodogradilište d.d., Pula (2000)
- Ambient Air Monitoring, Zoljani (Cement Production Facility), Našice (2000)
- Ambient Air Monitoring, Šibak (future Gravel Pit), Rugvica (2000)
- Ambient Air Monitoring, Waterwell Šibice, Zaprešić (1999)
- Ambient Air Monitoring, Waste Landfill Duplje, Novi Vinodolski (1999)
- Ambient Air Monitoring, Waste Landfill, Krapinsko-zagorska County (1999)
- Ambient Air Monitoring, Istarske ciglane, Borut – Cerovlje (1999)
- Ambient Air Monitoring, Quarry "Ivanec", Ivanec (1999)
- Ambient Air Monitoring, Vukovina (future Gravel Pit), Velika Gorica (1999)
- Ambient Air Monitoring, Tourist Village "Pineta" – Valbandon (1998)
- Ambient Air Monitoring, Fažana (1998)
- Ambient Air Monitoring, Ripenda and Semići (1998)
- Ambient Air Monitoring, Facility PUTO, Jakuševac (1998)
- Ambient Air Monitoring, Županja (1998)
- Ambient Air Monitoring, Golubovečki Quarry (1998)
- Ambient Air Monitoring, Railroad Gradec-Sveti Ivan Žabno (1997)
- Ambient Air Monitoring, elementary schools, Zagreb (1997)
- Ambient Air Monitoring, Waste Landfill, Umag (1997)

- Ambient Air Monitoring, Recycling Yard "Kunišćak", Zagreb (1997)
- Ambient Air Monitoring, HEMPEL, Umag (1997)
- Ambient Air Monitoring, SIPRO, Umag (1997)
- Ambient Air Monitoring, TE Lukovo Šugarje, Obrovac (1997)
- Ambient Air Monitoring, Ličko-senjska County(1997)
- Ambient Air Monitoring, Istarska County(1997)
- Ambient Air Monitoring, Recycling Yard, Zagreb (1996)
- Ambient Air Monitoring, Waste Landfill "Jakuševac", Zagreb (1996)
- Ambient Air Monitoring, CHROMOS, Žitnjak, Zagreb (1996)
- Ambient Air Monitoring, PLIVA, Savski Marof (1996)
- Ambient Air Monitoring, Quarry "Plaškarica", Bosiljevo (1996)
- Ambient Air Monitoring, Kaštela Bay (1995)

1.15.3. AMBIENT AIR MONITORING AUTOMATED STATIONS

- Ambient Air Monitoring Station Maintenance and Data Analysis, Town of Velika Gorica (ongoing)
- Ambient Air Monitoring Station Maintenance and Data Analysis, Town of Velika Gorica (2012)
- Ambient Air Monitoring Station Maintenance and Data Analysis, Town of Velika Gorica (2011)
- European Commission: projecteuropeAid/124394/D/SUP/YU for 28 state air monitoring stations in Serbia (2010)
- Equipment Supply for Containers for 9 State Ambient Air Monitoring Stations (2009)
- Ambient Air Monitoring Station Maintenance and Data Analysis, Town of Velika Gorica (2009)
- Ambient Air Monitoring Station, Town of Velika Gorica (2008)
- Ambient Air Monitoring Station, INA MAZIVA, Rijeka, Mlaka (2002)
- Ambient Air Monitoring Station, B&H, Banja Luka and SarajevoeBRD (2001)
- Ambient Air Monitoring Station, HEP,eL-TO, Zagreb, Vrhovec (2000)
- Ambient Air Monitoring Station, Pula, Fižela (1998)
- Ambient Air Monitoring Station, B i H, TE Kakanj, (1998)

1.15.4. EMISSION MEASUREMENT FROM STATIONARY SOURCES

- Emission measurement from stationary sources, Production region central Croatia, area ŽUTICA (2016)
- Emission measurement from stationary sources, Production region central Croatia, area STRUŽEC (2016)
- Emission measurement from stationary sources, Production region central Croatia, area Lipovljani (2016)
- Emission measurement from stationary sources, Production region estern Croatia, facilities Beničanci (2016)
- Emission measurement from stationary sources, Kuehne + Nagel d.o.o. (2016)
- Emission measurement from stationary sources, Auto centar Kovačević d.o.o. (2016)
- Emission measurement from stationary sources, Croatian bureau for employment – regional office Zagreb (2016)
- Emission measurement from stationary sources, , Holcim d.o.o. – concrete plant Kukuljanovo (2016)
- Emission measurement from stationary sources, autokaroserija Kundić (2016)
- Emission measurement from stationary sources, Production region estern Croatia, facilities Đeletovci (2016)
- Emission measurement from stationary sources, Marija modna odjeća, proizvodnja i trgovina (2016)
- Emission measurement from stationary sources, MMM-Vukelić d.o.o. (2016)
- Emission measurement from stationary sources, RI Triangulum officium d.o.o. (2016)
- Emission measurement from stationary sources, Komunalno poduzeće d.o.o., Križevci (2016)
- Emission measurement from stationary sources, Oprema Baričević d.o.o. (2016)
- Emission measurement from stationary sources, KIM Karlovac (2016)
- Emission measurement from stationary sources, Dunapack (2016)
- Emission measurement from stationary sources, PIK Vrbovec (2015)
- Emission measurement from stationary sources, Dunapack (2015)
- Emission measurement from stationary sources, Unitas (2015)
- Emission measurement from stationary sources, INETEC (2015)
- Emission measurement from stationary sources, Procar (2015)
- Emission measurement from stationary sources, PC grupa (2015)

- Emission measurement from stationary sources, PSP Okoli (2015)
- Emission measurement from stationary sources, MGK Pack (2015)
- Emission measurement from stationary sources, Geotehnički studio Janaf (2015)
- Emission measurement from stationary sources, Holcim Ocura (2015)
- Emission measurement from stationary sources, Plitvička jezera (6 locations) (2015)
- Emission measurement from stationary sources, Holcim Plovanija (2015)
- Emission measurement from stationary sources, Autokuća Štarkelj (2015)
- Emission measurement from stationary sources, Autoravnica Kornic (2015)
- Emission measurement from stationary sources, HonIng (2015)
- Emission measurement from stationary sources, PAN (2015)
- Emission measurement from stationary sources, Janaf (2015)
- Emission measurement from stationary sources, HEP Varaždin (2015)
- Emission measurement from stationary sources, Elementary school, Višnjan (2015)
- Emission measurement from stationary sources, Končar (3 locations) (2015)
- Emission measurement from stationary sources, Eurocable (2015)
- Emission measurement from stationary sources, TPT (2015)
- Emission measurement from stationary sources, SCAN (2 lokacije) (2015)
- Emission measurement from stationary sources on location of Counties Posavina, Podravina and Slavonija, INA (2014)
- Emission measurement from stationary sources, Holcim mineralni agregati (2014)
- Emission measurement from stationary sources, ZTC (2014)
- Emission measurement from stationary sources, Felis (2014)
- Emission measurement from stationary sources, INTIS (2014)
- Emission measurement from stationary sources, PIK Vrbovec (2013)
- Emission measurement from stationary sources, Dunapack (2013)
- Emission measurement from stationary sources, Končar (2013)
- Emission measurement from stationary sources, Grad Zagreb (2013)
- Emission measurement from stationary sources, Holcim – Zabok, Očura, Kukuljanovo, Karlovac, Lučko (2013)
- Emission measurement from stationary sources, Energoremont (2013)
- Emission measurement from stationary sources, Energo (2013)
- Emission measurement from stationary sources, Bolnica Pula (2013)
- Emission measurement from stationary sources, TPT (2013)
- Emission measurement from stationary sources, Sladorana (2013)
- Emission measurement from stationary sources, Belišće (2013)
- Emission measurement from stationary sources, Hospitalija (2013)
- Emission measurement from stationary sources, INA – Posavina, Podravina, Slavonija (2013)
- Emission measurement from stationary sources, INA (2012)
- Emission measurement from stationary sources, Belišće (2012)
- Emission measurement from stationary sources, Končar (2012)
- Emission measurement from stationary sources, MORH (2012)
- Emission measurement from stationary sources, TMT (2012)
- Emission measurement from stationary sources, Holcim (2012)
- Emission measurement from stationary sources, PIK Vrbovec (2012)
- Emission measurement from stationary sources, Dunapack d.d. (2012)
- Emission measurement from stationary sources, EXOR (2012)
- Emission measurement from stationary sources, Lola Ribar d.d. (2012)
- Emission measurement from stationary sources, DTR d.d. (2012)
- Emission measurement from stationary sources, Podzemno skladište plina d.o.o. (2012)
- Emission measurement from stationary sources, Hrvatski zavod za transfuzijsku medicinu (2012)
- Emission measurement from stationary sources, ART d.o.o. (2012)
- Emission measurement from stationary sources, Hidraulika Kurelja d.o.o. (2012)
- Emission measurement from stationary sources, Hrvatski zavod za zapošljavanje, Područna služba Zagreb (2012)
- Emission measurement from stationary sources, ADRIA P.A. d.o.o. (2012)
- Emission measurement from stationary sources, ENERGOREMONT d.d. (2012)
- Emission measurement from stationary sources, Procar d.o.o. (2012)
- Emission measurement from stationary sources, TVORNICA PLINSKIH TURBINA d.o.o. (2012)
- Emission measurement from stationary sources, HŽ PUTNIČKI PRIJEVOZ d.o.o. (2012)

- Emission measurement from stationary sources, ALATI STUHNE d.o.o. (2012)
- Emission measurement from stationary sources, METIS d.d. (2012)
- Emission measurement from stationary sources, HRVATSKE AUTOCESTE d.o.o. (2012)
- Emission measurement from stationary sources, IVIČEK d.o.o. (2012)
- Emission measurement from stationary sources, PAN – PAPIRNA INDUSTRIJA - TVORNICA PAPIRA ZAGREB d.o.o. (2012)
- Emission measurement from stationary sources, SLADORANA d.d. (2012)
- Emission measurement from stationary sources PIK Vrbovec (2011)
- Emission measurement from stationary sources INAgip (2011)
- Emission measurement from stationary sources PAN (2011)
- Emission measurement from stationary sources Elektra Varaždin (2011)
- Emission measurement from stationary sources Dampini (2011)
- Emission measurement from stationary sources, Sladorana Županja (2011)
- Emission measurement from stationary sources, Plinacro Ltd (2011)
- Emission measurement from stationary sources Croatian highways (2011)
- Emission measurement from stationary sources, Holcim (2011)
- Emission measurement from stationary sources, INA – PJ Terminal Solin (2011)
- Emission measurement from stationary sources, Belišće Ltd (2011)
- Emission measurement from stationary sources, Zrakoplovno – tehnički centar (2011)
- Emission measurement from stationary sources, HŽ Infrastructure (2011)
- Emission measurement from stationary sources OVV, Ranžirni kolodvor Zagreb (2011)
- Emission measurement from stationary sources Končar (2011)
- Emission measurement from stationary sources Elektroda Zagreb (2011)
- Emission measurement from stationary sources on location of Counties Posavina, Podravina and Slavonija, INA (2010)
- Emission measurement from stationary sources, Sladorana Županja (2010)
- Emission measurement from stationary sources, Svijet keramike (2010)
- Emission measurement from stationary sources, Agroproteinka (2010)
- Emission measurement from stationary sources, Danica (2010)
- Emission measurement from stationary sources, Metis Rijeka (2010)
- Emission measurement from stationary sources, Končar Samobor (2010)
- Emission measurement from stationary sources, HŽ Vuča vlakova Slavonski brod (2010)
- Emission measurement from stationary sources, HŽ Vuča vlakova Moravice (2010)
- Emission measurement from stationary sources, PIK Vrbovec (2010)
- Emission measurement from stationary sources, HŽ Vuča vlakova (2010)
- Emission measurement from stationary sources, Podzemno skladište plina (2010)
- Emission measurement from stationary sources, Jamnica Zagreb (2010)
- Emission measurement from stationary sources, Jamnica Jastrebarsko (2010)
- Emission measurement from stationary sources, Jamnica Pisarovina (2010)
- Emission measurement from stationary sources, Jamnica Gorica Svetojanska (2010)
- Emission measurement from stationary sources, HŽ, Zagreb (2009)
- Emission measurement from stationary sources, OVV, Vunkovci (2009)
- Emission measurement from stationary sources, OVV, Zagreb (2009)
- Emission measurement from stationary sources, OVV, Rijeka (2009)
- Emission measurement from stationary sources, Sladorana, Županja (2009)
- Emission measurement from stationary sources, Ciglane, Zagreb (2009)
- Emission measurement from stationary sources, Končar, Zagreb (2009)
- Emission measurement from stationary sources, Energoremont, Karlovac (2009)
- Emission measurement from stationary sources on location of Counties Posavina, Podravina and Slavonija, INA (2009)
- Emission measurement from stationary sources, Belišće (2009)
- Emission measurement from stationary sources, INA, Lipovljani (2009)
- Emission measurement from stationary sources, INA, Žutica (2009)
- Emission measurement from stationary sources, Šime Sinovi, Zagreb (2009)
- Emission measurement from stationary sources, Kemijska Čistiona Agata (2009)
- Emission measurement from stationary sources, Kemijska Čistiona Super (2009)
- Emission measurement from stationary sources, Elektroda, Zagreb (2009)
- Emission measurement from stationary sources, PIK Vrbovec (2009)
- Emission measurement from stationary sources, Auto Valenčić, Rijeka (2009)

- Emission measurement from stationary sources, Autocentar Kovačević (2009)
- Emission measurement from stationary sources, ProCar, Rijeka (2009)
- Emission measurement from stationary sources, AP Viškovo, Rijeka (2009)
- Emission measurement from stationary sources, Raspor, Rijeka (2009)
- Emission measurement from stationary sources, Sladorana Županja (2009)
- Emission measurement from stationary sources, Autoviola (2009)
- Emission measurement from stationary sources, OV, Zagreb (2009)
- Emission measurement from stationary sources, OV, Moravice (2009)
- Emission measurement from stationary sources, OV, Koprivnica (2009)
- Emission measurement from stationary sources, Messer (2009)
- Emission measurement from stationary sources, Silvano, Rijeka (2009)
- Emission measurement from stationary sources, Agroproteinka (2009)
- Emission measurement from stationary sources, Barbarić, Rijeka (2009)
- Emission measurement from stationary sources, Lakirica Karojba (2009)
- Emission measurement from stationary sources, Danica, Koprivnica (2009)
- Emission measurement from stationary sources, Očura - kotlovnica (2009)
- Emission measurement from stationary sources, Tvornica Plinskih Turbina, Karlovac (2009)
- Emission measurement from stationary sources, Autoservis Draga (2009)
- Emission measurement from stationary sources, AdriaPA Renault (2009)
- Emission measurement from stationary sources, Trivelato Autoservis (2009)
- Emission measurement from stationary sources, SELK, Kutina (2009)
- Emission measurement from stationary sources, DI Zelina (2009)
- Emission measurement from stationary sources, TEA Medicina (2009)
- Emission measurement from stationary sources, Marino, Vodnjan (2009)
- Emission measurement from stationary sources, PSP Okoli (2009)
- Emission measurement from stationary sources, Hospitalija (2009)
- Emission measurement from stationary sources, STD, Koprivnica (2008)
- Emission measurement from stationary sources, INA, Urinj (2008)
- Emission measurement from stationary sources, INA, Mlaka (2008)
- Emission measurement from stationary sources, PIK Vrbovec, Bjelovar (2008)
- Emission measurement from stationary sources, INA, PSP Okoli (2008)
- Emission measurement from stationary sources, Agroproteinka (2008)
- Emission measurement from stationary sources, Očura (2008)
- Emission measurement from stationary sources, PIK Vrbovec - sušara (2008)
- Emission measurement from stationary sources, Servis Fišer (2008)
- Emission measurement from stationary sources, Auto Kuš (2008)
- Emission measurement from stationary sources, Kratofil (2008)
- Emission measurement from stationary sources, INA, Etan (2008)
- Emission measurement from stationary sources, Sladorana Županja (2008)
- Emission measurement from stationary sources, Autoravnica Krk (2008)
- Emission measurement from stationary sources, Energoremont, Karlovac (2008)
- Emission measurement from stationary sources, INA, Struzec (2008)
- Emission measurement from stationary sources, OVV, Rijeka (2008)
- Emission measurement from stationary sources, OVV, Vinkovci (2008)
- Emission measurement from stationary sources, OVV, RK (2008)
- Emission measurement from stationary sources, OVV, Knin (2008)
- Emission measurement from stationary sources, OVV, Varazdin (2008)
- Emission measurement from stationary sources, OVV, Ogulin (2008)
- Emission measurement from stationary sources, OVV, Karlovac (2008)
- Emission measurement from stationary sources, HS, Bjelovar 1 (2008)
- Emission measurement from stationary sources, HS, Daruvar (2008)
- Emission measurement from stationary sources, HS, Cazma (2008)
- Emission measurement from stationary sources, CARmoto, Rijeka (2008)
- Emission measurement from stationary sources, Končar, Jankomir (2008)
- Emission measurement from stationary sources, Končar, Borongaj (2008)
- Emission measurement from stationary sources, Končar, Sesevski Kraljevec (2008)
- Emission measurement from stationary sources, Auto karoserija Kundić (2008)
- Emission measurement from stationary sources, Martan, Osijek (2008)
- Emission measurement from stationary sources, HS, Bjelovar 4 (2008)

- Emission measurement from stationary sources, Zanelli, Rijeka (2008)
- Emission measurement from stationary sources, AC Drago, Rijeka (2008)
- Emission measurement from stationary sources, VJ Auto, Rijeka (2008)
- Emission measurement from stationary sources, OVV, RijekaTermogeni (2008)
- Emission measurement from stationary sources, MetroAlfa (2008)
- Emission measurement from stationary sources on locations Urinj (19 sources) and Mlaka (12 sources), INA Oil Refinery, Rijeka (2008)
- Emission measurement from stationary sources, PIK Vrbovec, Vrbovec (2008)
- Emission measurement from stationary sources, PIK Vrbovec, Bjelovar (2008)
- Emission measurement from stationary sources, Jamnica, Jastrebarsko (2008)
- Emission measurement from stationary sources, Agroproteinka, Zagreb (2008)
- Emission measurement from stationary sources, MetroAlfa (2008)
- Emission measurement from stationary sources, Uljanik, Vodnjan (2008)
- Emission measurement from stationary sources, PAN, Zagreb (2008)
- Emission measurement from stationary sources, Dunapack, Zabok (2008)
- Emission measurement from stationary sources, Održavanje Vagona, Moravice (2008)
- Emission measurement from stationary sources, Danica, Koprivnica (2008)
- Emission measurement from stationary sources, BOR, Bedekovčina (2008)
- Emission measurement from stationary sources, BETI, Zakanje (2008)
- Emission measurement from stationary sources, Croatia Baterije, Koturaška (2008)
- Emission measurement from stationary sources, Orbicon, Škorpikova (2008)
- Emission measurement from stationary sources, Jamnica, Svetojanske toplice (2008)
- Emission measurement from stationary sources, Jamnica, Pisarovina (2008)
- Emission measurement from stationary sources on location of Counties Posavina, Podravina and Slavonija, INA (2007)
- Emission measurement from stationary sources, Agroproteinka (2007)
- Emission measurement from stationary sources, BolnicaNoviMarof (2007)
- Emission measurement from stationary sources, Bor, Bedekovcina (2007)
- Emission measurement from stationary sources, Hospitalija (2007)
- Emission measurement from stationary sources, Jamnica (2007)
- Emission measurement from stationary sources, INA-Naftaplin (2007)
- Emission measurement from stationary sources, Energoremont, Karlovac (2007)
- Emission measurement from stationary sources, INA, Mlaka (2007)
- Emission measurement from stationary sources, Dr. Skobic (2007)
- Emission measurement from stationary sources, INA, Urinj (2007)
- Emission measurement from stationary sources, Sladorana Županja (2007)
- Emission measurement from stationary sources, Belišće (2007)
- Emission measurement from stationary sources, Ciglane Zagreb (2007)
- Emission measurement from stationary sources, Elektroda, Zaprešić (2007)
- Emission measurement from stationary sources, HNK, Zagreb (2007)
- Emission measurement from stationary sources, Komunalac, Koprivnica (2007)
- Emission measurement from stationary sources, Končar (2007)
- Emission measurement from stationary sources, Messer (2007)
- Emission measurement from stationary sources, Održavanje Vagona (2007)
- Emission measurement from stationary sources, PIK, Bjelovar (2007)
- Emission measurement from stationary sources, PIK, Vrbovec (2007)
- Emission measurement from stationary sources, TrajbarTeam (2007)

1.15.5. DRILING, WATER AND SOIL SAMPLING AND ANALYSIS

- **Exploratory works – drilling, water, soil and gas analyses:**
 - o , waste landfill Diklo, Zadar (2016)
 - o waste landfill “Šljukine njive”, Pirovac (2010)
 - o waste landfill “Radosavci”, Saltina (2010)
 - o waste landfill „Poljanice“, Velika (2010)
 - o waste landfill „Karlovac“, Bukovlje (2008)
 - o waste landfill „Delice“, Koprivnički Bregi (2008)
 - o waste landfill „Trema-Gmanje“, Sveti Ivan Žabno (2008)

- waste landfill „Zmajevac“, Kneževi Vinogradi (2008)
 - waste landfill „Ada Koritna“, Semeljci (2008)
 - waste landfill „Stara Ciglana“, Semeljci (2008)
 - waste landfill „Jagodnjak 1“, Jagodnjak (2008)
 - waste landfill „Križic-Srijedska“, Ivanska (2008)
 - waste landfill „Klepa“ Peteranec (2008)
 - waste landfill „Kozarevac Račanski“, Nova Rača (2008)
 - waste landfill „Mrcinjak“, Gornja Vrba (2008)
 - waste landfill „Ćore“, Dvor (2006)
 - waste landfill „Barutana“, Jasenovac (2006)
 - waste landfill Veliki Grđevac, Veliki Grđevac (2005)
 - waste landfill "Ćojluk", Udbina (2005)
 - waste landfill "Dolci", Stari Grad (2005)
 - waste landfill "Jagodnja gornja", Polača (2005)
 - waste landfill "Jandrin grm", Novigrad Podravski (2005)
 - waste landfill Novigrad, Novigrad (2005)
 - waste landfill "Vidovac", Karlobag (2005)
 - waste landfill "Zarabaniž", Kali (2005)
 - waste landfill "Prapatna", Jelsa (2005)
 - waste landfill "Stanišće", Hvar (2005)
 - waste landfill "Stražbenica", Gračac (2005)
 - waste landfill "Teleš", Drnje (2005)
 - waste landfill Donja Dubrava, Donja Dubrava (2005)
 - waste landfill Đurđenovac, Đurđenovac (2005)
 - waste landfill "Ledine", Đelekovec (2005)
 - waste landfill "Ćuić brdo", Rakovica (2005)
- **Monitoring of landfill gases and preparation of reports for**
- waste landfil Diklo, grad Zadar (u tijeku)
 - waste landfil Lokva Vidotto (u tijeku)
 - waste landfil grada Opatije (u tijeku)
 - waste landfil grada Rovinja (u tijeku)
 - waste landfil grada Slatine (u tijeku)
 - waste landfil grada Pazina (u tijeku)
 - waste landfil grada Labina (u tijeku)
 - waste landfil grada Siska (u tijeku)
 - waste landfil Diklo, grad Zadar (2015)
 - waste landfil Lokva Vidotto (2015)
 - waste landfil grada Opatije (2015)
 - waste landfil grada Slatine (2015)
 - waste landfil grada Pazina (2015)
 - waste landfil grada Labina (2015)
 - waste landfil grada Velike Gorice (2015)
 - waste landfil grada Zaboka (2015)
 - waste landfil Cres (2015)
 - waste landfil Lošinj (2015)
 - waste landfil Božička, Jastrebarsko (2008)
 - waste landfil Županji (2008)
 - waste landfil u Petrinji (2008)
 - waste landfil Jerovec (2008)
 - waste landfil u Đurđevcu (2008)
 - communal waste landfil „Ada Koritna“, Semeljci (2008)
 - communal waste landfil „Stara Ciglana“, Semeljci (2008)
 - communal waste landfil „Jagodnjak 1“, Jagodnjak (2008)
 - communal waste landfil „Križic-Srijedska“, Ivanska (2008)
 - communal waste landfil „Klepa“ Peteranec (2007-2008)
 - communal waste landfil „Kozarevac Račanski“, Nova Rača (2007-2008)
 - communal waste landfil „Mrcinjak“, Gornja Vrba (2007-2008)
 - communal waste landfil „Karlovac“, Bukovlje (2007-2008)

- communal waste landfill „Delice“, Koprivnički Bregi (2007-2008)
- communal waste landfill „Trema-Gmanje“, Sveti Ivan Žabno (2007-2008)
- communal waste landfill „Zmajevac“, Kneževi Vinogradi (2007-2008)
- waste landfill Lokva Vidotto, Rovinj (2007, 2008)
- waste landfill Basilico, Rovinj (2007, 2008)
- waste landfill u Velikoj Gorici (2007)
- waste landfill Osojnica, Opatija (2007)
- waste landfill Pavlovac, Slunj (2007)
- waste landfill Papuk, Vinkovci (2007)
- waste landfill Lokva Vidotto, Rovinj (2007)

1.15.6. BIOLOGICAL AND OCEANOGRAPHICAL EXPLORATION WORKS

- Environmental monitoring during the construction of Kopno-Čiovo bridge (on going)
- Terrestrial and marine biodiversity and habitat baseline survey of the island Obonjan (2016)
- Inventarization of puddles in the corridor of connection road Rogovići – Lindarski križ (2015)
- Exploratory works (monitoring) that include biocenological structure and the content of flora and fauna of bentos in the area of port Novalja, island of Pag (2014)
- Exploratory works (monitoring) that include marine currents measurements and analysis, analysis of sea water quality, sediment analysis, biocenological structure and the content of flora and fauna of bentos in the area of nautical tourism port Šimuni (2012)
- Mapping and inventarization of sea habitats in Istria county within the SHAPE project (2012)
- Exploratory works (monitoring) that include biocenological structure and the content of flora and fauna of bentos in the area of port Gruž (2010)
- Exploratory works (monitoring) that include marine currents measurements and analysis, analysis of sea water quality, sediment analysis, biocenological structure and the content of flora and fauna of bentos in the area of nautical tourism port Žut (2010)
- Exploratory works (monitoring) that include marine currents measurements and analysis, sediment analysis, biocenological structure and the content of flora and fauna of bentos in the area of nautical tourism port Palmižana (2010)
- Exploratory works (monitoring) that include marine currents measurements and analysis, analysis of sea water quality, sediment analysis, biocenological structure and the content of flora and fauna of bentos in the area of port Vrnaža, Šibenik (2010)

1.16. Design preparation

1.16.1. WATER INFRASTRUCTURE

- Preparation of necessary documentation for upgrading the WWTP in Vranishta, extension of the collector system for Ohrid Lake and separation of the foul and storm priority water network in the Cities of Ohrid and Struga, Macedonia; IPA/OPRD 2007-2011/3.1/LOT6/10 (2015)
- TA for preparation of preliminary design for sewerage and WWTP Berane (2011-2013)
- Main and Construction Design of 2st Phase for the Sewerage System for Rain and Waste Water, settlements of Nedelišće Municipalities (2013)
- Main and Construction Design of 1st Phase for the Sewerage System for Rain and Waste Water, settlements of Nedelišće Municipalities (2011)
- Main and Construction Design of sewerage system Orehovica – Podbrest (2011)
- Main and Construction Design for the Sewerage System with belonging WWTP of Novo Selo na Dravi Settlements (2008)
- Preliminary Design for Modification of Location Permit for Novo Selo na Dravi Sewerage System (2008)
- Expert Basis for preparation of Preliminary Design for Water Supply System, Island of Zverinac (2007)
- Preliminary Design for Sewerage and Water Supply System, the Town of Knin (2007)
- Preliminary Design for Sewerage and Water Supply System, the Town of Drniš (2007)
- Preliminary Design for WWTP, the Town of Knin (2007)

1.16.2. WASTE MANAGEMENT INFRASTRUCTURE

- Landfill "Poljanice" Sanation Plan, Municipality Velika (2013)
- Main and Construction Project of Sanitary Landfill remediation Sozanj, Lastovo (2012)
- Landfill „Križic-Srijedska“ Sanation Plan, Municipality Ivanska (2012)
- Amendment of the Preliminary Design for Remediation of Sanitary Landfill Sozanj, Island Lastovo (2010)
- Amendment of the Preliminary Design for Remediation of Sanitary Landfill Stražbenica, Gračacu (2010)
- Remediation plan of illegal landfills, Stari Grad (2009)
- Preliminary Design of non-hazardous waste landfill Trema Gmanje, Sveti Ivan Žabno (2009)
- Preliminary Design of non-hazardous waste landfill Kozarevac Račanski Nova Rača (2009)
- Remediation plan for illegal landfills, Knin (2009)
- Expert Basis for preparation of Preliminary Design for unsorted and communal Waste Transfer Station for Primorsko-goranska County (2008)
- Main and Construction Project of Sanitary Landfill remediation Novigrad, Novigrad (2008)
- Preliminary Design of Sanitary Landfill „Ćore“ , Dvor (2006)
- Preliminary Design of Sanitary Landfill „Barutana“, Jasenovac (2006)
- Preliminary Design of Tourist Cabel Skrad-Zaleni Vir (2005)
- Preliminary Design of Sanitary Landfill "Jagodnja gornja", Polača (2005)
- Preliminary Design of Sanitary Landfill "Čojluk", Udbina (2005)
- Preliminary Design of Sanitary Landfill "Jagodnja gornja", Polača (2005)
- Preliminary Design of Sanitary Landfill "Jandrin grm", Novigrad Podravski (2005)
- Preliminary Design of Sanitary Landfill "Vidovac", Karlobag (2005)
- Preliminary Design of Sanitary Landfill "Zarabaniž", Kali (2005)
- Preliminary Design of Sanitary Landfill "Stražbenica", Gračac (2005)
- Preliminary Design of Sanitary Landfill "Torčec", Drnje (2005)
- Preliminary Design of Sanitary Landfill "Torčec", Drnje (2005)
- Preliminary Design of Sanitary Landfill Donja Dubrava, Donja Dubrava (2005)
- Preliminary Design of Sanitary Landfill Đurđenovac, Đurđenovac (2005)
- Preliminary Design of Sanitary Landfill "Ledine", Đelekovec (2005)
- Preliminary Design of Sanitary Landfill "Ćuić brdo", Rakovica (2005)

1.16.3. ENVIRONMENTAL SUPERVISION DURING CONSTRUCTION

- Supervision during the construction of the freeway along Vc corridor, section Počitelj-Zvirovići, Bosnia and Herzegovina (on going)
- Technical assistance (TA) to KORIDORI SRBIJE d.o.o.: Supervision of the Implementation of the Environmental Management Plans During Construction Works on Highways E75 (Grabovnica - Levošoje) and E80 (Prosek - Dimitrovgrad) (in progress)
- Supervision during the construction of the freeway along Vc corridor, section Vlakovo – Tarčin, subsection Vlakovo – Lepenica, Bosnia and Herzegovina (2013-2015)
- Supervision during the construction of the state road D205, section Risvica – Dubrovčan, length 10,4 km (2014)

1.16.4. OTHER

- Proposition of Traffic Connector for Business Zone Hrvatski Leskovac to A3 Highway (2007)

1.17. Education

- "Green employment opportunities" - Green Employment Feasibility study trainings (2014) - project is supported by the EU Programme for Employment and Social Solidarity – PROGRESS (2007-2013)
- Technical Assistance for Management of IPA/ SF Operational Programme (EuropeAid/132567/D/SER/HR) – providing Junior NKE Expert: Economics/ Financial Expert for training preparation and conduction (2014)

1.18. Developmental projects

- Development of the Master plan of the natural gas network in Montenegro including priority project identification (on going) – part of the project Infrastructure Projects Facility Technical Assistance Window (IPF TA) Western Balkans; EuropeAid/128073/C/SER/MULTI; subproject WB10-MNE-ENE-01
- Consulting services for acquiring investors for hotel and other services in island Veliki Brijun, Report on environmental state of island Veliki Brijun (2014)
- Water utility system in Croatia – market analysis (2014)
- Development and implementation of the Strategy of sector for utility companies – economical and, financial efficiency of water supply and waste water collection utility companies – international experiences and lessons learned (2013)
- Study on Institutional Options in the Water Supply and Wastewater Sector in Croatia” HV/TA-A 1.2.3 (2012)
- UNDP Croatia: Provision of services for conducting participatory planning process that will result with meetings of interested stakeholders/working groups including Local Action Group, preparation of the Local Development Strategy/Programme as well as developing Greenways project proposal - RFP 03/11 (2011)
- Support to Maximise the Socio-Economic Development Effects of Sveto Brdo Mountain Tourism Resort for Lika - Senj County – Infrastructure Technical Documentation and Support for Labor Market and Supply Chain Development Activities (EUROPEAID/123912/D/SER/HR; CARDS 2004 (2007-2008)
- Capacity strengthening measures for the Croatian environment protection agency – legal requirements harmonization according to environmental acquis (01/ 2005 – 01/2006) – EPTISA int., CARDS 2002, (2005/2006)
